The Text, the Play, and the Globe Joseph Candido, 2016-06-27 The purpose of this book is to honor the scholarly legacy of Charles R Forker with a series of essays that address the problem of literary influence in original ways and from a variety of perspectives The emphasis throughout is on the sort of careful exhaustive evidence based scholarship to which Forker dedicated his entire professional life Although wide ranging and various by design the essays in this book never lose sight of three discrete yet overlapping areas of literary inquiry that create a unity of perspective amid the diversity of approaches 1 the formation of play texts textual analysis and editorial practice 2 performance history and the material playing conditions from Shakespeare's time to the present including film as well as stage representations and 3 the world both cultural and literary in which Shakespeare and his contemporaries worked and to which they bequeathed an artistic legacy that continues to be re interpreted and re defined by a whole new set of cultural and literary pressures Eschewing any single predetermined ideological perspective the essays in this book call our attention to how the simplest questions or observations can open up provocative and unexpected scholarly vistas In so doing they invite us into a subtly re configured world of literary influence that draws us into new often unexpected ways of seeing and understanding the familiar

Unfixable Forms Katherine Schaap Williams, 2021-06-15 Unfixable Forms explores how theatrical form remakes and is in turn remade by early modern disability Figures described as deformed lame crippled ugly sick and monstrous crowd the stage in English drama of the sixteenth and seventeenth centuries In each case such a description distills cultural expectations about how a body should look and what a body should do yet crucially demands the actor's embodied performance In the early modern theater concepts of disability collide with the deforming vulnerable body of the actor Reading dramatic texts alongside a diverse array of sources ranging from physic manuals to philosophical essays to monster pamphlets Katherine Schaap Williams excavates an archive of formal innovation to argue that disability is at the heart of the early modern theater's exploration of what it means to put the body of an actor on the stage Offering new interpretations of canonical works by William Shakespeare Ben Jonson Thomas Dekker Thomas Middleton and William Rowley and close readings of little known plays such as The Fair Maid of the Exchange and A Larum For London Williams demonstrates how disability cuts across foundational distinctions between nature and art form and matter and being and seeming Situated at the intersections of early modern drama disability studies and performance theory Unfixable Forms locates disability on the early modern stage as both a product of cultural constraints and a spark for performance's unsettling demands and electrifying eventfulness

The Struggle for Shakespeare's Text Gabriel Egan, 2010-10-21 We know Shakespeare's writings only from imperfectly made early editions from which editors struggle to remove errors The New Bibliography of the

early twentieth century refined with technological enhancements in the 1950s and 1960s taught generations of editors how to make sense of the early editions of Shakespeare and use them to make modern editions This book is the first complete history of the ideas that gave this movement its intellectual authority and of the challenges to that authority that emerged in the 1980s and 1990s Working chronologically Egan traces the struggle to wring from the early editions evidence of precisely what Shakespeare wrote The story of another struggle between competing interpretations of the evidence from early editions is told in detail and the consequences for editorial practice are comprehensively surveyed allowing readers to discover just what is at stake when scholars argue about how to edit Shakespeare

War Pictures Kent Puckett, 2017-05-01 In this original and engaging work author Kent Puckett looks at how British filmmakers imagined saw and sought to represent its war during wartime through film The Second World War posed unique representational challenges to Britain's filmmakers Because of its logistical enormity the unprecedented scope of its destruction its conceptual status as total and the way it affected everyday life through aerial bombing blackouts rationing and the demands of total mobilization World War II created new critical opportunities for cinematic representation Beginning with a close and critical analysis of Britain's cultural scene *War Pictures* examines where the historiography of war the philosophy of violence and aesthetics come together Focusing on three films made in Britain during the second half of the Second World War Michael Powell and Emeric Pressburger's *The Life and Death of Colonel Blimp* 1943 Lawrence Olivier's *Henry V* 1944 and David Lean's *Brief Encounter* 1945 Puckett treats these movies as objects of considerable historical interest but also as works that exploit the full resources of cinematic technique to engage with the idea experience and political complexity of war By examining how cinema functioned as propaganda criticism and a form of self analysis *War Pictures* reveals how British filmmakers writers critics and politicians understood the nature and consequence of total war as it related to ideas about freedom and security national character and the daunting persistence of human violence While Powell and Pressburger Olivier and Lean developed deeply self conscious wartime films their specific and strategic use of cinematic eccentricity was an aesthetic response to broader contradictions that characterized the homefront in Britain between 1939 and 1945 This stylistic eccentricity shaped British thinking about war violence and commitment as well as both an answer to and an expression of a more general violence Although *War Pictures* focuses on a particularly intense moment in time Puckett uses that particularity to make a larger argument about the pressure that war puts on aesthetic representation past and present Through cinema Britain grappled with the paradoxical notion that in order to preserve its character it had not only to fight and to win but also to abandon exactly those old decencies those sporting club rules that it sought also to protect

Literary Drowning Stephanie Pocock Boeninger, 2020-10-23 Literary depictions of drowning or burial at sea provide fascinating glimpses into the often conflicted human relationship with memory For many cultures and religious traditions properly remembering the dead involves burial a funeral and some kind of grave marker Traditional rituals of

memorialization are disturbed by the drowned body which may remain lost at sea or be washed up unrecognized on a distant shore The first book of its kind *Literary Drowning* explores depictions of the drowned body in twentieth century Irish and Caribbean postcolonial literature uncovering a complex transatlantic conversation that reconsiders memory forgetfulness and the role that each plays in the making of the postcolonial subject and nation Faced with fissures in cultural memory postcolonial writers often identify their situation and their nation s with that of the drowned body Floating aimlessly without a grave unmemorialized and perhaps unremembered the drowned corpse embodies the troubled memory of the postcolonial nation or individual Boeninger follows a trail of drowned bodies and literary influence from the turn of the century Irish playwright J M Synge through the poems and plays of St Lucian Nobel laureate Derek Walcott to the lesser known work of Guyanese British novelist and poet David Dabydeen and finally to the contemporary Irish plays of Marina Carr Each author while borrowing from those who came before changes the image of the drowned body to reflect different facets of the project of remembering postcolonially
