of its didacticism to the broader literary context of the Mah bh rata Mythologizing in South Asian Traditions Diana Dimitrova,2025-04-11 This book deals with the issue of mythologizing in South Asian traditions It brings together a number of essays dealing with the interface between mythology gender politics and nationalism The common thread that links the chapters is the appropriation and reinterpretation of myth and its weaponizing for the purpose of power or political gain All chapters explore the various aspects of the ongoing process of re mythologizing of the present as revealed in South Asian traditions The essays in this collection respond to the same question how to interpret the present What is the meaning of ancient and venerated myths today What are the ideological implications of the interpretation of myths and how do they reflect and influence the power structures of contemporary societies in South Asia Visions and Revisions in Sanskrit Narrative Raj Balkaran,McComas Taylor,2023-11-21 Sanskrit narrative is the lifeblood of Indian culture encapsulating and perpetuating insights and values central to Indian thought and practice This volume brings together eighteen of the foremost scholars across the globe who in an unprecedented collaboration accord these texts the integrity and dignity they deserve The last time this was attempted on a much smaller scale was a generation ago with Pur a Perennis 1993 The pre eminent contributors to this landmark collection use novel methods and theory to meaningfully engage Sanskrit narrative texts showcasing the state of contemporary scholarship on the Sanskrit epics and pur as **Disorienting Dharma** Emily T. Hudson,2013-01-31 This book explores the relationship between ethics aesthetics and religion in classical Indian literature and literary theory by focusing on one of the most celebrated and enigmatic texts to emerge from the Sanskrit epic tradition the Mahabharata This text which is widely acknowledged to be one of the most important sources for the study of South Asian religious social and political thought is a foundational text of the Hindu tradition s and considered to be a major transmitter of dharma moral social and religious duty perhaps the single most important concept in the history of Indian religions However in spite of two centuries of Euro American scholarship on the epic basic questions concerning precisely how the epic is communicating its ideas about dharma and precisely what it is saying about it are still being explored Disorienting Dharma brings to bear a variety of interpretive lenses Sanskrit literary theory reader response theory and narrative ethics to examine these issues One of the first book length studies to explore the subject from the lens of Indian aesthetics it argues that such a perspective yields startling new insights into the nature of the depiction of dharma in the epic through bringing to light one of the principle narrative tensions of the epic the vexed relationship between dharma and suffering In addition it seeks to make the Mahabharata interesting and accessible to a wider audience by demonstrating how reading the Mahabharata perhaps the most harrowing story in world literature is a fascinating disorienting and ultimately transformative experience **Rocznik orientalistyczny** ,2007 *Asiatische Studien* ,2000 **Early Śaivism and the Skandapurāṇa** Peter C. Ambikakhanda and Revakhanda *L'espace du sens* Silvia D'Intino, Sheldon I. Pollock, 2018 Pour le philologue le texte est un terrain qu'il entreprend d'explorer dans le menu de détail et dont il retrace la fois une genalogie et l'avènement du sens. Il s'agit d'explorer les traditions intérieures desquelles le texte fait sens ou contre lesquelles il s'inscrit de relever aussi tout ce qui se rapporte son sens ses origines ses développements ses formes ses nuances ses particularités. Si le sens d'un texte n'est jamais singulier et qu'il faut l'envisager comme la somme des significations qu'il reçoit au cours de son histoire. S. Pollock est seulement dans un contexte culturel donné qu'il prend forme. Autant que du temps le sens d'un texte est une fonction de l'espace de l'univers et du réseau intérieur duquel il est perçu transformé reconfiguré. Nous avons essayé de mettre l'accent sur cet ancrage dans un espace culturel donné et sur les pratiques de la philologie comme autant d'approches possibles de cet espace du sens.

The Mahābhārata and the Yugas Luis González Reimann, 2002 This book questions the conventional wisdom that a fully matured theory of the yugas Hinduism's ages of the world is integral to the Mahābhārata and it illustrates how traditional commentators and modern scholars have read the later Puranic yuga theory into the Mahābhārata in particular when it comes to placing the action at the beginning of the current terrible Kali Yuga. Luis González Reimann discusses the meaning of key terms in the epic by examining the text and early Buddhist sources. This book also traces the sectarian appropriation of the yuga system in later literature and documents how modern religious movements have used the system to proclaim the arrival of a new prosperous Kṛta Yuga a phenomenon that coincides with New Age expectations.

Harānandalaharī Ryutaro Tsuchida, Albrecht Wezler, 2000 *From Harappa to Hastinapura* Piotr Andreevich Eltsov, 2008 This volume revisits the controversial issues of continuity and great tradition in protohistoric and early historic south Asia from a novel and provocative analytical perspective. It investigates the phenomena of the city and civilization in Bronze and Iron Age south Asia from the point of view of archaeology and ancient Indian literature. **Epic Undertakings**

Robert P. Goldman, Muneo Tokunaga, 2009 Recent years have witnessed continued and growing interest in the massive and fascinating poems we know as the Sanskrit epics. This interest has manifested itself in the continuing translations of texts, a steady stream of publications and numerous scholarly meetings of Sanskrit epic scholars. A number of these scholars assembled in Helsinki to constitute the Epic Section of the 12th World Sanskrit Conference in the summer of 2003. The present volume places before the indological community the sixteen learned papers presented at the conference by the distinguished group of scholars who were in attendance. The topics and methodologies of the authors are as varied and diverse as the contents of the monumental poems themselves but each contribution sheds new light on some aspect of the genetic and/or receptive history of these works, their relationship to each other and to other index texts or the representation and analysis of specific characters and episodes in the poems. **Studien Zur Indologie und Iranistik**, 2007 **The**

Technological Choices and Material Meanings in Early and Middle Bronze Age Hungary Attila Kreiter,2007 This study assesses patterns in technological choices for key cultural groups in Bronze Age Hungary through macroscopic and petrological analyses of ceramic assemblages with a focus on understudied categories such as storage vessels Technological style results in a characteristic way of making pottery through communication of values and beliefs through the generations If technological difference can be identified and is seen as distinctive to a specific cultural group then it follows that by comparing technological traditions it may be possible to distinguish between the different social dynamics of contemporary societies Similarities allow us to assess the nature of social relations between communities This may call into question how traditional studies have constructed typologically defined cultural groups and provide a less fragmented picture of the Bronze Age of Hungary Thus this research is not a methodological study of provenancing ceramics but tries to answer specific archaeological questions through scientific methods *The Cincinnati Symphony Orchestra Year Book* ,1963
