Crossings A Transpersonal Approach:

Crossings, a Transpersonal Approach Carl David Levett, 1974 **The Shaman's Doorway** Stephen Larsen, 1998
Drawing on his experience as a psychotherapist and his understanding of the ancient shamanic techniques for altering consciousness the author shows the relevance of the shamanic path to the modern world and how it can lead us to creative and affirming relationships with life

Crossing Boundaries Lynda Birke, Jo Hockenhull, 2012-08-14 Many people feel strong bonds with nonhuman animals and these relationships are central to much emerging scholarship in human animal studies Yet to study relationships is not straightforward research often focuses on how humans affect animals or vice versa rather than on the relationships themselves Partly this is a consequence of the history of disciplinary divisions particularly between natural and social sciences In this book contributors from a wide range of disciplinary backgrounds reflect on the methodological challenges they face and how they go about studying relationships between people and animals The book provides fascinating insights into how research on human animal relationships can rise to the challenges of interdisciplinarity and help us to understand the animals with whom we bond

Performance in Postmodern Culture Michel Benamou, Charles Caramello, 1977 **Ecologies of Participation** Zayin Cabot, 2018-04-30 In this daring debut Zayin Cabot challenges the wise homebodies of academia A profoundly interdisciplinary approach to comparative scholarship *Ecologies of Participation* offers a methodology whereby we can face our shared planetary predicament It is grounded in process philosophy and asserts the importance of a new ontology of agency It traces the importance of L vy Bruhl and L vi Strauss's early work while offering new insight into the ontological turn in anthropology This book sets out to destabilize modern reductionist trends toward scientific materialism without falling into postmodern cultural constructivism It does not assume the givenness of nature or culture By advancing a multi ontology approach this work offers robust interventions into decolonial and critical studies Cabot takes contemporary scholarship in new and exciting directions

offering an unstable ground from which to examine our shared worlds both human and other Throughout the last chapters of the book these threads are illuminated through a detailed ethics of comparison and participation
