Crowded Earth:

The Crowded Earth Robert Bloch,2022-09-22 This Crowded Earth is one of the early entries in the overpopulation subgenre It begins with Harry Collins in that far future year of 1997 and follows him through various adventures to 2065 Harry is one of the growing number of people who can't stand the over-crowded cities He lives in a cramped bachelor's apartment he could upgrade to a larger one if he'd get married but he'd also have to add an hour to his commute each way bringing the total to six hours One day he suffers a mental breakdown and is sent to a bucolic clinic in the country where he soon enters a relationship with a nurse Or so he thinks A doctor at the clinic approaches him with the truth the nurse is another patient who was instructed to deceive him in order to start a tryst They're both in fact part of an experiment to solve the overpopulation problem The doctor is apprehended by the Powers That Be at the clinic and Harry is told the man's a nut But soon his nurse disappears and he ends up in a relationship with another and then another and another Bloch plays coy about what exactly the experiments are about but we eventually learn that they're part of a project to end overcrowding by breeding midget babies Goodreads [This Crowded Earth](#) Robert Bloch,2013-03-25 This Crowded Earth is a taut and compelling story about an all too possible future Earth is overcrowded and its resources are being taxed to the limit The government has a desperate plan but will it work and at what price By the author of Psycho and Yours Truly Jack the Ripper
