Cry Of Angry Thunder:

I Am Me Tomas Morato,2010 **Metaphors of ANGER across Languages: Universality and Variation** Zoltan Kövecses,Réka Benczes,Veronika Széld,2024-11-04 Anger is one of the basic emotions of human emotional experience informing and guiding many of our choices and actions Although it has received considerable scholarly attention in a number of disciplines including linguistics a basic question has still remained unresolved why do variations in the folk model of anger exist across languages if it is indeed a basic emotion rooted in largely universal bodily experience By drawing on a wide selection of comparable linguistic data from dozens of languages including a number of less researched languages this volume provides the most comprehensive account of what is universal and what is variable in the folk model of anger and why It also investigates the role that metonymies might play in the emergence of anger related metaphors and in what ways context influences or shapes anger metaphors and thereby the resulting folk model of anger No such volume exists in the cognitive linguistic literature on anger or on emotions for that matter The book is thus an essential contribution to the study of anger and will serve as basic reading for any researcher interested in how the conceptualization of anger is constructed via the interplay of bodily experience language and the larger cultural context *The Frank C.
