Time and the Image Carolyn Bailey Gill, 2000 This fascinating and innovative study explores the lives of people living in early modern Ireland through the books and printed ephemera which they bought borrowed or stole from others While the importance of books and printing in influencing the outlook of early modern people is well known recent years have seen significant changes in our understanding of how writing and print shaped lives and was in turn shaped by those who appropriated the written word The author finds that a set of revolutions took place which transformed the lives of the Irish in unexpected ways and that the rise of writing and the spread of print were central to an understanding of those changes which have previously only been understood to have been the result of conquest and colonisation This is a book which will be read not only by those interested in the Irish past but by all those who are concerned with the impact of communications media on social change

Thinking Reality and Time through Film José Manuel Martins, Christine Reeh, 2017-03-07 Over the last few decades film has increasingly become an issue of philosophical reflection from an ontological and epistemological perspective and the claim doing philosophy through film has raised extensive discussion about its meaning The mechanical reproduction of reality is one of the most prominent philosophical questions raised by the emergence of film at the end of the nineteenth century inquiring into the ontological nature of both reality and film Yet the nature of this audio photographic and moving reproduction of reality constitutes an ontological puzzle which has widely been disregarded as a main line of enquiry with direct consequences for philosophy Regarding this

background this volume brings together the best papers from the Lisbon Conference on Philosophy and Film Thinking Reality and Time through Film held in 2014 What they all have in common is the discussion of new aspects and approaches of how philosophy relates to film Whether by philosophizing through concrete examples of films or whether looking at film s ontological reliance on time and image or its intra active entanglement with reality or truth this book explores grasp film s nature philosophically and provides new insights for the film philosopher and the filmmaker as well as for the freshman fascinated by film for philosophical reasons **Philosophy and Film** Christina Rawls,Diana Neiva,Steven S.
