Cuba Restructuring The Economy A Contribution To The Debate:

Cuba, Restructuring the Economy Julio Carranza, Luis Gutiérrez Urdaneta, Pedro M. Monreal González, 1996 The study includes an analysis of the internal as well as the external structural constraints on the Cuban economy in the 1990s a detailed analysis of the options for monetary and fiscal reform and proposals for the development of what might be termed a mixed economy organized according to socialist principles There is also a chapter discussing some of the responses both from within Cuba and from abroad to the original publication The introduction by Ruth Pearson discusses the significance of this book for the economic and political debates currently facing Cuba *The Politics of the Internet in Third World Development* Bert Hoffmann, 2004-10-01 This book examines the political and developmental implications of the new information and communication technologies NICT in the Third World Whereas the concept of the digital divide tends to focus on technological and quantitative indicators this work stresses the crucial role played by the political regime type the pursued development model and the specific configuration of actors and decision making dynamics Two starkly contrasting Third World countries state socialist Cuba and the Latin America s show case democracy Costa Rica were chosen for two in depth empirical country studies Culture and Economy in Cuba's Transition Dale Allen Bretches, 2000 **Re-imagining Communication in Africa and the Caribbean** Hopeton S. Dunn, Dumisani Moyo, William O. Lesitaokana, Shanade Bianca Barnabas, 2021-01-30 This book advances alternative approaches to understanding media culture and technology in two vibrant regions of the Global South Bringing together scholars from Africa and the Caribbean it traverses the domains of communication theory digital technology strategy media practice reforms and corporate and cultural renewal The first section tackles research and technology with new conceptual thinking from the South The book then looks at emerging approaches to community digital networks online diaspora entertainment and video gaming strategies The volume then explores reforms in policy and professional practice including in broadcast television online newspapers media philanthropy and business news reporting Its final section examines the role of village based folk media the power of popular music in political opposition and new approaches to overcoming neo colonial propaganda and external corporate hegemony This book therefore engages critically with the central issues of how we communicate produce entertain and build communities in 21st century Africa and the Caribbean **Cuba** Ted A. Henken, Miriam Celaya, Dimas Castellanos, 2013-10-29 Written by some of the best known independent scholars citizen journalists cyber activists and bloggers living in Cuba today this book presents a critical complete and unbiased overview of contemporary Cuba In this era of ever increasing globalization and communication across national borders Cuba remains an isolated island oddly out of step with the rest of the world And yet Cuba is beginning to evolve via the important if still insufficient changes instituted by Raul Castro who became president in 2008 This book supplies a uniquely independent accurate and critical perspective in order to evaluate these changes in the context of the island s rich and complex history and culture Organized into seven topical chapters that address geography

history politics and government economics society culture and contemporary issues readers will gain a broad insightful understanding of one of the most unusual fascinating and often misunderstood nations in the Western Hemisphere The Cuban Economy at the Start of the Twenty-first Century Jorge I. Domínguez, Omar Everleny Pérez Villanueva, Lorena Barberia, 2004 Cuban and American social scientists and policy experts examine Cuba's development trajectory by delving into issues ranging from the political economy of reform to their impact on specific sectors including export development foreign direct investment and U S Cuba trade **British Bulletin of Publications on Latin America, the Caribbean, Portugal and Spain**, 1994 The Role of Human Capital in Cuban Economic Development, 1959-1999 Claes Brundenius, 2000 **Florida Law Review**, 2000 Tourism as an Engine of Growth Claes Brundenius, 2002

Development Prospects in Cuba Pedro M. Monreal González, 2002 The 1990s witnessed significant changes in the Cuban economy The first half of the decade focused on obtaining the adjustments necessary to enable the country to overcome the profound economic crisis that had befallen it The second half was characterized by the reality and possibilities of economic recovery This volume may be the first academic text specifically written to assess the development perspectives of Cuba in the new conditions that prevail The overarching question is What comes after recovery The authors deal with questions of immediate relevance to the Cuban economy and its recent past with emphasis placed on the implications for long term prospects for development This reflects the conviction that solutions to the challenge of development will require longer periods of analysis and different areas of focus than those which have served as the temporal and conceptual references for recent studies of the island's economy Contributors include Julio Carranza Anicia Garcia Hiram Marquetti Lazaro Pena Omar Everleny Perez and Julio Diaz Vazquez University of Havana Cuba Claes Brundenius Centre for Development Research Copenhagen Denmark David Dapice Tufts University and Harvard University USA Francisco Leon United Nations Economic Commission for Latin America and the Caribbean and Mauricio de Miranda Pontificia Universidad Javeriana Colombia *Living Ideology in Cuba* Katherine Gordy, 2015-06-02 A revealing look at the complicated and continual negotiation between the Cuban state and society over the meaning of socialism **Journal of Economic Literature**, 1998 **Journal of International Affairs**, 2004 **European Review of Latin American and Caribbean Studies**, 2001 *Transnational law & contemporary problems*, 2004 *Democracy and Revolution* D. L. Raby, 2006 Is socialism dead since the fall of the Soviet Union What is the way forward for the Left D L Raby argues that Cuba and above all Venezuela provide inspiration for anti globalization and anti capitalist movements across the world Another world is possible but only by winning power on a popular democratic basis Raby argues that the future lies not in the dogmatism of the Old Left nor in the spontaneous autonomism of Holloway or Negri Instead it is to be found in broad popular movements with bold leadership Examining the success of key leaders including Hugo Chavez Fidel Castro and the Sandinistas in Nicaragua Raby shows that it is more necessary than ever to take power peacefully if possible but with the strength that

comes from popular unity backed by force where necessary In this way democratic power can be built which may or may not be socialist depending on one s definition but which represents the real anti capitalist alternative for the twenty first century

Problems of Post-communism ,2006 Exclusion and Engagement Christopher Abel,Colin M. Lewis,2002 This collection offers a reappraisal of social policy in response to the scale of the challenges confronting Latin America Divided into four sections Concepts Models and Practice Health and Social Security Education and Household and Community the book explores the functions of social policy and the prospects of it s performing a new and more dynamic role The authors place contemporary social policy in historical perspective study the connection between growth and welfare and consider the efficacy of the state in the social sphere from both macro and micro perspectives Underpinning the collection are issues relating to the question of the social contract between state and citizen and how the exercise of citizenship connects society and state Bibliographic Index ,1997
