Cubism in the Shadow of War David Cottington,1998 Modernism on Stage Juliet Bellow,2017-07-05 Modernism on Stage restores Serge Diaghilev s Ballets Russes to its central role in the Parisian art world of the 1910s and 1920s During those years the Ballets Russes stage served as a dynamic forum for the interaction of artistic genres dance music and painting in a mixed media form inspired by Richard Wagner s Gesamtkunstwerk total work of art This interdisciplinary study combines a broad history of Diaghilev s troupe with close readings of four ballets designed by canonical modernist artists Pablo Picasso Sonia Delaunay Henri Matisse and Giorgio de Chirico Experimental both in concept and form these productions redefine our understanding of the interconnected worlds of the visual and performing arts elite culture and mass entertainment in Paris between the two world wars This volume traces the ways in which artists working with the Ballets Russes adapted painterly styles to the temporal three dimensional and corporeal medium of ballet Analyzing interactions among sets costumes choreography and musical accompaniment the book establishes what the Ballets Russes productions looked like and how audiences reacted to them Juliet Bellow brings dance to bear upon modernist art history as more than a source of imagery or ornament she spotlights a complex dialogue among art forms that did not preclude but rather enhanced artists interrogation of the limits of medium

The Liberation of Painting Patricia Leighton,2013-11-08 The years before World War I were a time of social and political ferment in Europe which profoundly affected the art world A major center of this creative tumult was Paris where many avant garde artists sought to transform modern art through their engagement with radical politics In this provocative study of art and anarchism in prewar France Patricia Leighton argues that anarchist aesthetics and a related politics of form played crucial roles in the development of modern art only to be suppressed by war fever and then forgotten Leighton examines the circle of artists Pablo Picasso Juan Gris Franti ek Kupka Maurice de Vlaminck Kees Van Dongen and others for whom anarchist politics drove the idea of avant garde art exploring how their aesthetic choices negotiated the myriad artistic languages operating in the decade before World War I Whether they worked on large scale salon paintings political cartoons or avant garde abstractions these artists she shows were preoccupied with social criticism Each sought an appropriate subject medium style and audience based on different conceptions of how art influences society and their choices constantly shifted as they responded to the dilemmas posed by contradictory anarchist ideas According to anarchist theorists art should expose the follies and iniquities of the present to the masses but it should also be the untrammled expression of the emancipated individual and open a path to a new social order Revealing how these ideas generated some of modernism s most telling contradictions among the prewar Parisian avant garde **The Liberation of Painting** restores revolutionary activism to the broader history of modern art
