Cuckoos Egg:

The Cuckoo's Egg Cliff Stoll, 2024-07-02 This is the true story of how a systems manager at Lawrence Berkeley Lab singlehandedly tracked down and helped capture a computer hacker who had been breaking into U S computer systems and stealing sensitive military and security information Cliff Stoll was an astronomer turned systems manager at Lawrence Berkeley Lab when a 75 cent accounting error alerted him to the presence of an unauthorized user on his system The hacker's code name was Hunter A mystery invader hiding inside a twisting electronic labyrinth breaking into U S computer systems and stealing sensitive military and security information Stoll began a one man hunt of his own spying on the spy and plunged into an incredible international probe that finally gained the attention of top U S counterintelligence agents A year of deception broken codes satellites missile bases and the ultimate sting operation and how one ingenious American trapped a spy ring paid in cash and cocaine and reporting to the KGB *The Cuckoo's Egg* Clarence Forestier-Walker, 1906

Cuckoo's Egg C. J. Cherryh, 1985 *One Flew into the Cuckoo's Egg* Bill Oddie, 2008-09-04 Whose first records were produced by George Martin and who had two singles banned by the BBC Who earned rare reviews on Broadway for his dancing Who rode on the back seat of the Goodies tandem Who has been called Britain's best known birdwatcher Who had his first clinical depression in his 60th year and has only just discovered why Who has written an autobiography that is as witty candid and unconventional as the man himself Answer to all of the above Bill Oddie Bill Oddie is best known for the wacky humour of the Goodies and the irrepressible enthusiasm of his nature programmes off screen there has been a darker side Bill has suffered from bouts of depression which have more than once taken him to the brink Now he is back in control and wiser about the causes and the cure Here he describes the childhood blighted by the absence of his mother who had been committed to a mental asylum when he was small It was a lonely and difficult start to life but there were to be happier times Touring with the Cambridge Footlights in the 1960s saw him alongside the greatest comic talents of his generation John Cleese and of course fellow Goodies Tim Brooke Taylor and Graeme Garden Soon the Goodies were to become one of the biggest comedy hits of the 70s bringing a new brand of surreal humour to our screens Now as Britain's favourite birdwatcher Bill has turned his private passion into his most public role and presented more than 20 nature programmes for the BBC He has also become a fervent and outspoken campaigner for the environment It has been an extraordinary and far from straightforward journey Bill Oddie takes us along with him in a memoir which is as witty candid curious and unconventional as the man himself *A Study on Parasitism in the Cuckoos* Francis Charles Robert Jourdain, 1925 *The Cuckoos* Robert B. Payne, 2005-07-14 The cuckoos are the most variable birds in social behavior and parental care a few cuckoos are among the most social of all birds and rear their young in a common nest most cuckoos are caring parents that rear their own young with some females laying a few eggs in the nests of others while many cuckoo species are brood parasites who leave their eggs in the nests of other birds to rear with their young maturing to kill their foster nestmates In *The Cuckoos* Robert B

Payne presents a new evolutionary history of the family based on molecular genetics and uses the family tree to explore the origins and diversity of their behaviour. He traces details of the cuckoos biology to their original sources includes descriptions of previously unpublished field observations and reveals new comparisons of songs showing previously overlooked cuckoo species. Lavishly illustrated with specially commissioned colour plates and numerous maps halftones and line drawings. **The Cuckoos** provides the most comprehensive and up to date account of this family yet available. **Cuckoos, Cowbirds and Other Cheats** Nick Davies, 2010-09-30 This fascinating study describes the natural histories of these brood parasites and examines many of the exciting questions they raise about the evolution of cheating and the arms race between parasites and their prey. Brood parasites fill their armoury with adaptations including exquisite egg mimicry, rapid laying, ejection of host eggs, murder of host young, chick mimicry and manipulative begging behaviour. Ploys shown by recent research to have evolved in response to host defence behaviour or through competition among the parasites themselves. While many host species appear defenceless, accepting parasite eggs quite unlike their own, many are more discriminating against odd looking eggs and some have evolved the ability to discriminate against odd looking chicks as well. How is this arms race conducted? Will defenceless hosts develop defences in time or are there constraints which limit the evolution and perfection of host defences? And why are so few species obliged only to lay eggs in host nests? Have host defences limited the success of brood parasitism or is it in fact much more common than we suspect but occurring mainly when birds parasitize the nest of their own kind? All of these puzzles are examined in descriptions of the natural history of each of the groups of parasites in turn. Here is a book with wide appeal both to amateur naturalists fascinated by this most singular and macabre of behaviours and by ornithologists and ecologists interested in the evolution of ecology and behaviour. The story takes us from the classic field work by pioneer ornithologists such as Edgar Chance, Stuart Baker, Herbert Friedmann and others through to the experimental field work and molecular techniques of today's leading scientists. We visit brood parasites in Europe, Asia, Japan, Africa, Australasia and North and South America to look at some of the world's most interesting birds and some of biology's most interesting questions, many of which still beg answers from ornithologists in the future. Brilliant illustrations by David Quinn illuminate the species discussed, showing many behaviours never before illustrated and conveying the thrill of watching these astonishing birds in the wild. **The Cuckoo's Secret** Edgar Percival Chance, 1922 *The Ornithologist* Harry Kirke Swann, 1897 *The Zoologist*, 1873 **The Zoologist** Edward Newman, James Edmund Harting, William Lucas Distant, Frank Finn, 1873 *Zoologist*, 1916 **Birds** Richard Lydekker, 1901 Library of Natural History Richard Lydekker, 1901 *Transactions of the Hertfordshire Natural History Society and Field Club* Hertfordshire Natural History Society and Field Club, 1912 The Royal Natural History Richard Lydekker, 1895 The National and English Review, 1909 **The National Review**, 1909 *Proceedings of the General Meetings for Scientific Business of the Zoological Society of London* Zoological Society of London, 1925 The Oologists' Record, 1921
