**The management of the Crown Estate** Great Britain: Parliament: House of Commons: Treasury Committee,2010-03-30 management of the Crown Estate Eighth report of session 2009 10 Vol 2 Oral and written Evidence **The Crown Estate** Great Britain. Crown Estate Commissioners,Ralph Bernard Pugh,1960 **America the Great** Edward Hawkins Sisson,2014-06-22 America the Great is the result of five years research and writing that began in late 2009 in response to the contemporary American tea party movement and criticisms that the movement s participants did not know the history and theory of the original 1773 Boston Tea Party from which the modern movement takes its name The extensive library of original books newspapers magazines etc now available primarily via google books to anyone over the Internet means that researchers have available to them the university libraries of the world The availability of accurate original documents made it possible to expand the original scope of research into other historical events and into other countries primarily Great Britain and enabled the work to develop into a more general examination of theories of human dignity and of the differing conception of government that arises depending on the conception of human dignity that is characteristic of the people that is creating that government [The future of marine renewables in the UK](#) Great Britain: Parliament: House of Commons: Energy and Climate Change Committee,2012-02-19 The Energy and Climate Change Committee believes the UK could become a leading exporter of wave and tidal power equipment and expertise if the Government adopts a more visionary approach to developing marine renewables Technologies that can harness the power of the sea to generate electricity are still in their infancy But with the largest wave and tidal resources in Europe up to 20% of the UK s electricity could eventually come from this reliable and predictable low carbon source Developing a thriving wave and tidal industry could also bring economic benefits to the UK Companies based here could export equipment and components for marine devices to other markets and also provide specialist skills and expertise such as offshore surveying The UK is currently the world leader in the development of wave and tidal energy technologies Of the eight full scale prototype devices installed worldwide seven are in the UK But an overly cautious approach to developing this sector may allow other less risk averse countries to steal the UK s lead as happened with wind turbines The report identifies a number of crucial areas for development of the marine renewables industry investor confidence policy certainty public private risk sharing improved grid connections and a workforce with the necessary engineering skills are all The UK needs a strong political vision to boost confidence and drive the pace of development in order to reap the rewards of a successful wave and tidal power industry [The Scotland Bill](#) Great Britain: Parliament: House of Commons: Scottish Affairs Committee,2011-03-21 Additional written evidence is contained in Vol 3 available on the Committee s website at [www.parliament.uk/treascom](http://www.parliament.uk/treascom) **The electronic communications code** Great Britain: Law Commission,2012-07-12 The Electronic Communications Code schedule 2 to the Telecommunications Act 1984 sets out the regime that governs the rights of electronic communications operators to install

and maintain infrastructure on public and private land The Code strikes a balance between the rights and interests of landowners and network operators This consultation paper discusses the current law and set out a number of provisional proposals and options for reform The paper considers all the main provisions of the current Code and areas highlighted for potential reform include the rights of operators and landowners under the Code and the position of third parties operators obligations under the Code and related regulations the test applied to determine whether code rights are granted to an operator where a landowner objects the measure of the financial award to be paid to the landowner where an operator is granted code rights the appropriate forum for the resolution of disputes and other procedural issues the interaction between the Code and other statutory regimes The Code applies throughout the UK The Commission s focus is on the law in England and Wales but the project is being conducted in consultation with the Scottish and Northern Irish Law Commissions

**The Routledge Research Companion to Energy Geographies** Stefan Bouzarovski, Martin J Pasqualetti, Vanesa Castán Broto, 2017-07-06 Energy has become a central concern of many strands of geographical inquiry from global climate change to the effects of energy decisions on our lives However many aspects of the black box of relationships at the energy society interface remain unopened especially in terms of the spatial underpinnings of energy production and consumption within nations cities and regions Debates focusing on the location and nature of energy flows frequently fail to consider the multiple geographical networks that illustrate and explain the distribution of fuels and services around the world Providing an integrated perspective on the complex interdependencies between energy and geography The Routledge Research Companion to Energy Geographies offers a timely conceptual framework to study the multiple facets of energy geography including security space and place planning environmental science economics and political science Illustrating how a geographic approach towards energy can aid decision making pathways in the domains of social justice and environment this book provides insights that will help move the international community toward greater cooperation stability and sustainability

*Offshore Wind Licensing* Ignacio Herrera Anchustegui, Tina Soliman Hunter, 2024-03-14 This incisive book provides a timely and magisterial analysis of offshore wind licensing processes and their regulation from a global perspective It not only explores the concept of licensing and the governance frameworks and backgrounds in which licensing rules are developed but also looks at the crucial legal challenges facing the licensing of offshore wind farms that regulators legislatures operators and legal practitioners are likely to encounter

**The Poor Had No Lawyers** Andy Wightman, 2011-08-01 In this updated edition of his utterly magnificent social history the Scottish parliamentarian examines the privatization of Scotland s common land Sunday Herald UK As an author activist and politician Andy Wightman has made a career of fighting for Scottish land reform In this provocative and influential book Wightman offers a revealing analysis of how and why landowners got their hands on the millions of acres that were once held in common He also tells the untold story of how the Scottish legal and political establishment appropriated land through legal fixes Throughout Wightman poses

some provocative questions Have attempts to redistribute power made any difference What are the implications of the debt fueled housing bubble the Smith Commission and the new Scottish Government s proposals on land reform Can we get our common good land back For all those with an interest in urban and rural land in Scotland this edition of *The Poor Had No Lawyers* updated with new statistics provides a fascinating analysis of one the most important political questions in Scotland
