Reframing Modernism: Painting from Southeast Asia, Europe and Beyond Low Sze Wee, Horikawa Lisa, Phoebe Scott, 2016-03-31 What is modernism in Southeast Asia What is modern art as embodied in the paintings of Southeast Asia These questions and more are answered in *Reframing Modernism Painting from Southeast Asia Europe and Beyond* published in conjunction with the exhibition of the same name Featuring 217 works in full colour by 51 Southeast Asian and European artists from the Centre Pompidou and National Gallery Singapore as well as other Southeast Asian collections in the region and beyond this catalogue tells the compelling story of modernism as it developed across continents and reveals artists powerful and sometimes surprising responses to modernity *A Regional Contemporary* C. J. W.-L. Wee, 2025-03-18 The first critical account of the enormous upsurge in cultural expression across Asian countries from 1979 2008 and the new possibilities it presented for the aesthetic and cultural re imagining of a unified contemporary Asia Biennial style art exhibitions New discourses in modern and contemporary art The production and circulation of increasingly debordered popular culture *A Regional Contemporary* by C J W L Wee is an investigative account of the dramatic increase in cultural expression in Asia from 1979 to 2008 with the 1990s as the focal point of this period The so called East Asian miracle Wee argues projected a fictive but shared contemporary regional identity onto Northeast and Southeast Asia collectively taken as East Asia The new cultural explosion was notably enabled by expanded capitalist energies that reached a level critical enough to reposition the region s postcolonial and Cold War era nationalisms and this book examines the resulting implications A sophisticated and compelling study *A Regional Contemporary* is the first to examine the conjunction of high and popular culture in the region Moreover Wee reveals how the various cultural formations of this regional contemporary were able to traverse if not overcome uneven national economies the memory of Japanese empire and the geopolitical rifts of post Cold War nationalisms While foregrounding new cultural expression Wee simultaneously examines how novel economic conditions bolstered a more confident questioning of Western modernity s dominance and enhanced the capacity for regional dialogue in the bid to overcome colonial era legacies even as those legacies were being absorbed into the region VH1 VH1 For the designer if space is tight on the back this can be deleted *Curating Art* Janet Marstine, Oscar Ho Hing Kay, 2021-12-30 *Curating Art* provides insight into some of the most socially and politically impactful curating of historical and contemporary art since the late 1990s It offers up a museological framework for understanding watershed developments of curating in art museums Representing the plurality of theory and practice around the expanded field of relational curating the book focuses on curating that prioritises the quality of relationships between people and objects between institutions and people and among people It has wide international breadth with particularly strong representation in East and Southeast Asia including four papers never before translated into English This Asian cluster illuminates the globalisation of the field

and challenges dichotomies of East and West while acknowledging distinctions within specific but often transnational cultural spheres The compelling philosophical perspectives and case studies included within Curating Art will be of interest to students and researchers studying curating exhibition development and art museums The book will also inspire current and emerging curators to pose challenging but important questions about their own practice and the relationships that this work sustains

Living Art Elly Kent, Virginia Hooker, Caroline Turner, 2022-11-08 Living Art Indonesian Artists Engage Politics Society and History is inspired by the conviction of so many of Indonesia's Independence era artists that there is continuing interaction between art and everyday life In the 1970s Sanento Yuliman Indonesia's foremost art historian of the late twentieth century further developed that concept stating New Indonesian Art cannot wholly be understood without locating it in the context of the larger framework of Indonesian society and culture and the whole force of history The essays in this book accept Yuliman's challenge to analyse the intellectual sociopolitical and historical landscape that Indonesia's artists inhabited from the 1930s into the first decades of the new millennium including their responses to the COVID 19 pandemic The inclusion of one of Yuliman's most influential essays translated into English for the first time offers those outside Indonesia an insight into a formative period in the generation of new art knowledge in Indonesia The volume also features essays by T K Sabapathy Jim Supangkat Alia Swastika Wulan Dirgantoro and FX Harsono as well as the three editors Elly Kent Virginia Hooker and Caroline Turner The book's contributors present recent research on issues rarely addressed in English language texts on Indonesian art including the inspirations and achievements of women artists despite social and political barriers Islam inspired art artistic ideologies the intergenerational effects of trauma and the impacts of geopolitical change and global art worlds that emerged in the 1990s The Epilogue introduces speculations from contemporary practitioners on what the future might hold for artists in Indonesia Extensively illustrated Living Art contributes to the acknowledgement and analysis of the diversity of Indonesia's contemporary art and offers new insights into Indonesian art history as well as the contemporary art histories of Southeast Asia and Asia more generally
