Art In The Making Italian Painting Before 1400:

Art in the Making, 1990 **Italian Painting Before 1400** David Bomford, Jill Dunkerton, Dillian Gordon, Ashok Roy, Jo Kirby, 1989 In Italy between 1270 and 1370 the whole tradition of European painting underwent a radical and enduring change of direction This attractive and unusual study of Italian painted panels of the Early Renaissance examines the materials with which this transformation was effected and demonstrates how modern technology has increased our understanding of medieval panel painting The authors survey the primarily religious function of these works and the professional context in which the artists worked They provide explanations of the construction of panels and the preparation of wood for painting and of the preparation and application of gold leaf The substantial sections on pigments and color represent original research done at the Gallery that has enabled the writers to provide the first comprehensive survey of how paints were prepared mixed and applied *Art in the Making* David Bomford, Jo Kirby, 1990 *ITALIAN PAINTING BEFORE ~1400* (FOURTEEN HUNDRED)., 1989 *Art in the Making*, 1989 **Art in the Making**, 1989 *Art in Renaissance Italy* John T. Paoletti, Gary M. Radke, 2005 *Art in Renaissance Italy* sets the art of that time in its context exploring why it was created and in particular looking at who commissioned the palaces and cathedrals the paintings and the sculptures *Italian Paintings at the Yale University Art Gallery* Laurence Kanter, Pia Palladino, 2025-10-28 A comprehensive presentation of the Yale University Art Gallery's collection of Italian paintings from the thirteenth to the fifteenth century The collection of Italian paintings at the Yale University Art Gallery is one of the largest and richest in the world The first of four volumes on the collection this sumptuously illustrated book features over seventy five works dating from 1230 to 1420 by artists such as Taddeo Gaddi Andrea di Cione better known as Orcagna Lippo Memmi Pietro and Ambrogio Lorenzetti and Lorenzo Monaco In addition to discussions of each painting's meaning function and significance entries provide published references provenance full technical notes and detailed conservation histories An introduction by Laurence Kanter chronicles the history of the collection from the James Jackson Jarves Collection that was assembled in the nineteenth century the earliest formed collection of Italian paintings in any American museum to more recent gifts by Louis and Hannah Rabinowitz and Richard Feigen While many of the works are from Florence and Siena the volume also includes examples from Bologna Rimini Venice and more Through its wide ranging holdings the Gallery's collection provides a remarkable sense of the diverse visual culture of the time Distributed for the Yale University Art Gallery **History of Art** Horst Woldemar Janson, Anthony F. Janson, 2004 For forty years this widely acclaimed classic has remained unsurpassed as an introduction to art in the Western world boasting the matchless credibility of the Janson name This newest update features a more contemporary more colorful design and vast array of extraordinarily produced illustrations that have become the Janson hallmark A narrative voice makes this book a truly enjoyable read and carefully reviewed and revised updates to this edition offer the utmost clarity in contributions based on recent scholarship Extensive captions for the book's incredible art program

offer profound insight through the eyes of twentieth century art historians speaking about specific pieces of art featured throughout. Significantly changed in this edition is the chapter on The Late Renaissance in which Janson offers a new perspective on the subject tracing in detail the religious art tied to the Catholic Reform movement whose early history is little known to many readers of art history. Janson has also rearranged early Renaissance art according to genres instead of time sequence and he has followed the reinterpretation of Etruscan art begun in recent years by German and English art historians. With a truly humanist approach this book gives written and visual meaning to the captivating story of what artists have tried to express and why for more than 30 000 years.
