Art Of The Story Teller:

The Art of the Story-Teller Marie L. Shedlock,2009-01-01 Marie L Shedlock discusses what storytelling is the role of storytelling in culture the crucial elements of storytelling and its possible outcomes She also looks at the media used for storytelling in ancient times compared to the sophisticated multimedia storytelling of today s entertainment industry She follows the changes to storytelling brought about by the writing of language The Art of the Story-teller Marie L. Shedlock,1915 **The Art of the StoryTeller** Marie Shedlock,2016-12-02 Miss Shedlock has put together in this little book such observations and suggestions on story telling as can be put in words Those who have the artist s spirit will find their sense of values quickened by her words and they will be led to escape some of the errors into which even the greatest artists fall To those who know the book is a revelation of the intimate relation between a child s instincts and the finished art of dramatic presentation To those who do not know it will bring echoes of reality from the Preface This classic is now republished for modern writers and storytellers to perfect their craft The goal is riveted readers that want to buy your next book and the one after The degree you can tell a story and breathe life into its characters will measure your success as a storyteller and so an author Get Your Copy Now **The Art of the Story-Teller** Shedlock Marie L,2016-06-21 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy **The Art of the Story-Teller** Marie L. you it becomes an enriching experience *The Art of the Story-Teller (Classic Reprint)* Marie L. Shedlock,2017-11-22

Excerpt from *The Art of the Story Teller* The justification of the old fashioned moral was not artistic but didactic It embodied the determination of the story teller to see that his pupils got the full benefit of the lesson involved If the moral is to be cut out the story teller must be sure that the lesson is so clearly conveyed in the text that any further elaboration would be felt as an impertinent addition Whatley assures us that men prefer metaphors to Similes because in the Simile the point is baldly stated whereas in the metaphor the reader or hearer has to be his own interpreter All education is in the last resort self education and Miss Shedlock sees to it that her stories compel her hearers to make the application she desires In two other points modern opinion is prepared to give our authoress rein where our forefathers would have been inclined to restrain her The sense of humour has come to its proper place in our school rooms pupils humour be it understood for there always was scope enough claimed for the humour of the teacher So with the imagination The time is past when this mode of being conscious was looked at askance in school Parents and teachers no longer speak contemptuously about the busy faculty and quote Genesis in its condemnation Miss Shedlock has been well advised to keep to her legitimate subject instead of wandering afield in a Teutonic excursion into the realms of folk lore What parents and teachers want is the story as here and now existing and an account of how best to manipulate it This want the book now before us admirably meets About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *The Art of the Story-Teller* Marie L. The Art of the Story Teller by Marie L Shedlock

Storytelling is the conveying of events in words images and sounds often by improvisation or embellishment Story telling is almost the oldest art in the world the first conscious form of literary communication In the East it still survives and it is not an uncommon thing to see a crowd at a street corner held by the simple narration of a story There are signs in the West of a growing interest in this ancient art and we may yet live to see the renaissance of the troubadours and the minstrels whose appeal will then rival that of the mob orator or itinerant politician One of the surest signs of a belief in the educational power of the story is its introduction into the curriculum of the training college and the classes of the elementary and secondary schools It is just at the time when the imagination is most keen the mind being unhampered by accumulation of facts that stories appeal most vividly and are retained for all time *The Art of Story-Telling* Marie L. Shedlock,2020-07-24

Excerpt

Some day we shall have a science of education comparable to the science of medicine but even when that day arrives the art of education will still remain the inspiration and the guide of all wise teachers The laws that regulate our physical and mental

development will be reduced to order but the impulses which lead each new generation to play its way into possession of all that is best in life will still have to be interpreted for us by the artists who with the wisdom of years have not lost the direct vision of children Some years ago I heard Miss Shedlock tell stories in England Her fine sense of literary and dramatic values her power in sympathetic interpretation always restrained within the limits of the art she was using and her understanding of educational values based on a wide experience of teaching all marked her as an artist in story telling She was equally at home in interpreting the subtle blending of wit and wisdom in Daudet the folk lore philosophy of Grimm or the deeper world philosophy and poignant human appeal of Hans Christian Andersen **The Art of the Storyteller** Marie L.
