Art Of Vivan Sundaram:

The Art of Vivan Sundaram Vivan Sundaram, Kamala Kapoor, 2002 Catalog of works of Vivan Sundaram Indian artist includes a brief biographical sketch

Vivan Sundaram Deepak Ananth, 2018 This generously illustrated survey of the acclaimed Indian artist Vivan Sundaram features a comprehensive and wide ranging examination of his multi media practice extending over a period of five decades Vivan Sundaram s eclecticism is a distinctive feature of his work and is the focus of this monograph A pioneer of installation art in India Sundaram started off as a painter in the late 1960s but his desire to break free of the limits imposed by the pictorial frame only came to fruition in the early 1990s when Sundaram began making works that no longer hinged on the specificity of a medium This change in artistic direction coincided with his interest in exploring the materiality of a range of substances whether artisanal or industrial Sundaram s choice of materials has had a thematic resonance in the different bodies of work that he has made over the last twenty five years His practice keenly registers the civic dimension and political import of art History memory and archive are the overarching concerns of his work These themes define and structure this important publication and offer an open ended framework for exploring the oeuvre of a highly original artist Publisher *Vivan Sundaram* Vivan Sundaram, 1988

A Fragile Inheritance Saloni Mathur, 2019-10-22 Saloni Mathur investigates the radical work of two seminal figures New Dehli based critic and curator Geeta Kapur and her husband contemporary multimedia artist Vivan Sundaram to show how their approach to artistic practice and theory may inform subsequent generations and serve as a model for artistic politics in our time

A History of Indian Painting Krishna Chaitanya, 1976

Vivan Sundaram is Not a Photographer Ruth Rosengarten, 2019 In this book Ruth Rosengarten considers the expanded field of the photographic in the work of Indian artist Vivan Sundaram beginning with the notion that Sundaram is not a photographer in any traditional sense of the term Discussing the ontological shift that photography has undergone in the age of digital production Rosengarten considers photography as more a practice than a medium Exploring the uses of the historical artistic methods of assemblage bricolage and the assisted readymade she throws light on Sundaram s individual uses and subversions of documentary photography In each chapter a single or two bodies of work are analysed positioning Sundaram in relation to various propositions in which the relationship between photography and politics is probed Often site specific and always entailing the collaboration of numerous other practitioners Sundaram s work lays bare the limitations of individual studio practice and single authorship The works Rosengarten argues invite us to consider and immerse ourselves materially in the ethical claims of photography raising question about archivalism in art practice and throwing light on Sundaram s locational commitment as a citizen artist Cover flap

Contemporary Art and the Cosmopolitan Imagination Marsha Meskimmon, 2010-09-13 Contemporary Art and the Cosmopolitan Imagination offers a challenging new direction in the current literature on cosmopolitanism globalisation and art

Disjunctures Deepak Ananth, Anna Schneider (Art historian), 2018 Politics and poetics ethics and aesthetics the continual crossing of these

dimensions defines the forcefield in which the multimedia oeuvre of Vivan Sundaram born 1943 in Simla India has taken shape over the last 50 years His artistic beginnings coincide with an emblematic date in the second half of the twentieth century 1968 synonymous with the international protest movements of students workers and civil rights activists This was the year in which Sundaram made an important set of paintings soon after graduating from the Slade School of Art in London It was a moment that crystallized his conviction that an engagement with the world in all its actuality was the fundamental reason for being an artist All his endeavors since then in whichever medium he has explored have focused on finding the formal means appropriate to this commitment The collage montage principle that he adopted early on made for a disjunctive pictorial space which put the frame under considerable pressure Both Pop Art and Minimalism paved the way towards a practice understood as situated in an expanded field and Sundaram is the artist in India whose work has most keenly registered the political import of this deterritorialization Gallery website *The Tree Within* Indranil

we chose mathematica because of its huge suite of mathematical functions that can be implemented by simple one line commands for its symbolic computational power and for the large number of other texts that can be used by a student to gain proficiency in the language and to glean ideas for metabolic modelling

models of real cellular systems can become extremely complicated when constructed in this way for example the model of the red blood cell described in chapter 7 contains 60 state variables metabolites and 270 parameters such systems are often said to be overparameterized with respect to the available experimental data
