Anonymous Art at Auction Anne-Sophie V. Radermecker,2021-05-25 Working with a data set accounting for 13 000 auction sales results Anne Sophie V Radermecker explores what contemporary buyers value when purchasing paintings of unknown or uncertain authorship and which variables influence price formation mechanisms in this market segment The principle finding of this book is not only that historical names matter in the art market but so do all other alternative identification strategies that art market players use to label anonymous paintings Indirect names provisional names and spatiotemporal designations function as substitutes for real names that simulate identities create ex post stories around the artworks offered for sale and consequently reduce information asymmetry about an artist s identity with at time quite unexpected effects on price **Chemical Markets** ,1928 **The Art of Branding Yourself** Jeff Reeves,2008 *The Genesis of the Modern Art Market in London, 1700-1900* Thomas M. Bayer,2025-09-26 This book tells the story of the people who shaped the modern art market and its institutions to maximize the financial potential of their product This transformation resulted in a fundamental and lasting redefinition of art It is based on contemporaneous sources diaries letters newspapers journals and on extensive analyses of proprietary data related to the evolution of the modern art market in London between 1700 and 1900 It describes how local artists groups and other stakeholders led by historic individuals deliberately constructed a new aura for art as well as a new market infrastructure that liberated their creativity from the doctrinaire restrictions of the past This monumental enterprise resulted in a radical and lasting change in the course of our cultural legacy and ultimately paved the way for the development of modern art Along the way it also established artworks as coveted and unregulated financial assets with values in the hundreds of millions of dollars **Why Johnny Can't Brand** Bill Schley,Carl Nichols,2005 Too many companies think that splashy advertising and cool packaging is the same thing as

branding This in your face and down to earth guide explains real branding the process of creating an exclusive idea of value that consumers can expect to be consistently delivered It offers a unique eight week programme that can help any company create a number one brand by focusing on one big idea For anyone that wants to harness the true power of branding this enjoyable and informative book is certainly an excellent starting place

User Generated Branding Christoph Burmann,Ulrike Arnhold,2008 In the digital world of the participatory web millions of common people have started publishing own brand related content Such amateur pieces ignore official marketing campaigns and are generated by brand fans and opponents alike Given the increasing speed and reach of the internet those grassroots messages may have sweeping effects on the brand image This book represents a first comprehensive study fully dedicated to the emerging phenomenon of brand related user generated content It explores its patterns and shows how brand managers may benefit from it via user generated branding campaigns

China's Art Market since 1978 Li Ma,2023-09-30 This book examines the rising global prominence of China s art market throughout the twentieth and twenty first centuries To understand the far reaching impact of Chinese art on global consumption this book traces the shift from regional markets to global markets It asks how the Chinese art market re emerged from its politicized past innovated within the private economy boom remained resilient despite the global financial crisis and flourished on the global stage despite the COVID 19 pandemic Ultimately it argues that cultural entrepreneurship enabled Chinese art professionals to reinvent their space and to participate in the global artworld
