Art Of Giving:

Honor Yourself Patricia Spadaro, 2020-04-28 Patricia Spadaro is a marvelous guide through the inner realms of the heart I always feel uplifted by her words Marianne Williamson 1 New York Times bestselling author of A Return to Love Honor Yourself The Inner Art of Giving and Receiving winner of two national book awards skillfully guides us through one of the key stressors and paradoxes of our time how to balance what others need with what we need how to give and to receive Should I sacrifice for others or take time to care for myself Be generous or draw boundaries Stay in a relationship or say goodbye When I give to others do I really need to give up myself Tensions like these are not only a natural part of life they are life But rather than focusing on how to pamper ourselves Honor Yourself goes to the heart of the problem so you can find real solutions While modern society is ill equipped to bring us back into balance the sages of East and West are experts and Honor Yourself explores their practical and surprising advice Combining wisdom from around the world with real life stories and a treasury of tools it exposes the most potent myths about giving that can sabotage your relationships career finances even your health without you knowing it With candor and compassion it shows how to move beyond the myths to the magic of honoring yourself so you can live a life filled with possibility and passion and give your greatest gifts to your loved ones your community and the world We are called to master the delicate dance of giving and receiving in virtually every area of our lives and this beautiful work offers empowering and heartfelt ways to do it It will free you to celebrate your own gifts and greatness as you explore the dynamics behind setting boundaries being honest about unhealthy people in your life honoring endings using feelings to stay true to yourself finding your own voice giving with the heart rather than the head and much more Just as importantly Honor Yourself will teach you the steps for staying in balance For when you learn the steps you can perform the dance and that's when the magic begins

The Art of Giving Rajwant Kaur,2015-03-12 This book is related to what you have with you and at no cost you can give it to others Well in our entire lives we just forget ourselves and forget about what God has blessed us with and we go on chasing other things without discovering our true self Fluctuations in our moods day by day decide that we are not living our life the way we should live it we have not discovered the secret of life We are just going with the flow as our ancestors and we are not living a better and hopeful life Whatever we get in life is all what we have given in our life So giving is a great part of life What should be given is a question so that we receive wonderful results out of it This question is answered in this entire book and if you really follow it you will see a tremendous difference in the way you live your life No doubt there should not be second thoughts in your mind while executing everything you read because till the time you don't believe in it and follow it from your heart you are not going to get wonderful results As it is said you have to sow before you reap I can't help it sweetheart this is a law of nature which is above all of us So just carry on and enjoy reading it **The Art of Giving** Charles
