Coptic Monasteries Gawdat Gabra, 2002-09-01 Egypt the birthplace of communal monasticism has a rich store of monasteries and monastic art Coptic Monasteries takes the reader on a tour of the best preserved and most significant of these ancient religious centers documenting in exhaustive detail the richness and the glory of the Coptic heritage An informative introduction by Tim Vivian brings to life the early Christian era with background information on the origins of the Coptic Church as well as its rites and ceremonies sketches of some of monasticism's founding figures and accounts of some of the difficulties they faced from religious schism to nomadic attacks Gawdat Gabra's expert commentary complemented by almost one hundred full color photographs of newly restored wall paintings and architectural features covers monasteries from Aswan to Wadi al Natrun Ranging across a thousand years of history Gabra's observations will make any reader an expert on the composition and content of some of Egypt's most outstanding religious art the salient architectural features of each monastery as well as the ongoing process of restoration that has returned much of their original vibrancy to these works A unique and invaluable historical record Coptic Monasteries is equally an in depth on the spot guide to these living monuments or an armchair trip back in time to the roots of one of the world's oldest Christian traditions

Coptic Art and Archaeology Alexander Badawy, 1978 Professor Alexander Badawy has written and profusely illustrated this rich study of the works of Coptic Egyptians starting in the early Christian period following the Antique and ending with the assimilation of Coptic art into that of Islam Coptic Art and Archaeology is based on extensive archaeological excavations and on researchers accounts In developing his thesis on the nature of the Coptic spirit in the arts Professor Badawy an archaeologist and art historian has drawn upon his own firsthand observations plus a wealth of materials from museums all over the world The result is a comprehensive examination of the Coptic arts The text is illustrated with photographs including the author's own with plans of excavated sites and with the author's restored perspectives It is a journey through the sites and discoveries that have provided present knowledge of the Coptic civilization a journey that included the architecture of houses and towns fortified and unfortified monasteries murals paintings and sculpture in several media textiles ceramics and illuminated manuscripts All are described in painstaking detail and historical context by the author Illustrations are keyed to the text which in turn demonstrates that Coptic art was in many ways a people's art an art of the middle and lower classes and not invariably a religious art Developments in style reflected the changing fortunes of the Egyptian Christians and this too is carefully traced and the examples are noted in the text and in illustrations Professor Badawy concludes the book with a study of the effects of Coptic art on European artistic traditions The remarkable comprehensiveness of this book will make it a basic tool of professional art historians and

archaeologists and it seems inevitable that the extensive and detailed descriptions of the extant works of Coptic artists will stimulate additional research into this area of art history The professional and the student will find especially helpful the extensive footnotes bibliography of international sources listed by subject area e g Sculpture Architecture Painting and the literally hundreds of illustrations that provide an unparalleled single book source of examples of Coptic art For those who cannot make the pilgrimage to the actual sites or visit the museum collections all over the world Professor Badawy has provided the next best thing a painstakingly detailed representative description of the treasures that are known This is also a book for the layman who can enjoy the evidences of the Coptic genius in ornamentation and gain an appreciation of the influences of history and politics on the art and culture of a people **The Art of the Copts** Pierre M.
