The Aesthetics of Self-Harm Zoe Alderton, 2018-05-11 The Aesthetics of Self Harm presents a new approach to understanding parasuicidal behaviour based upon an examination of online communities that promote performances of self harm in the pursuit of an idealised beauty The book considers how online communities provide a significant level of support for self harmers and focuses on relevant case studies to establish a new model for the comprehension of the online supportive community To do so Alderton explores discussions of self harm and disordered eating on social networks She examines aesthetic trends that contextualise harmful behavior and help people to perform feelings of sadness and vulnerability online Alderton argues that the traditional understanding of self violence through medical discourse is important but that it misses vital elements of human group activity and the motivating forces of visual imagery Covering psychiatry and psychology rhetoric and sociology this book provides essential reading for psychologists sociologists and anthropologists exploring group dynamics and ritual and rhetoricians who are concerned with the communicative powers of images It should also be of great interest to medical professionals dealing with self harming patients **ICSPS 2019** Ali Munhanif, A. Bakir Ihsan, Im Halimatusa'diyah, Bambang Ruswandi, Khoirun Nisa, 2020-03-17 This book constitutes a thorough refereed proceedings of the THE 5TH INTERNATIONAL CONFERENCE ON SOCIAL AND POLITICAL SCIENCES ICSPS 2019 conducted on 12 November 2019 at State Islamic University UIN Syarif Hidayatullah Jakarta Indonesia The conference was organized by Faculty of Social and Political Sciences with a generous support from Center for Research and Community Service LP2M UIN Syarif Hidayatullah Jakarta The 28 full papers presented were carefully reviewed and selected from 63 submissions The scope of the paper includes the followings Poverty Legal Aid and Institutional Reform Activism of Civil Society and the Challenges of Socio Political Integration Resources Development and Environmental Politics New Religious Movement Identity Question and New Forms of Collective Action Shaping New Social Arena Resource Mobilization Agenda in Industrial Revolution 4.0 Labor Capitalism and the Struggle for Social Transformation New Debates on Feminism Women's Movement and Gender Equality Revitalizing Old Networks for New Politics of the Nation States Forming Social Movement the Use of Virtual Media for Public Good Transnational Movement and Peace In the New World Order From National Civil Society to Global Education Networks Multiculturalism Tolerance and the Trends in Justice and Equality Muslims and Politics in the Post Truth Era Millennial Generation and Online Society the Quest of Hybrid Identity **Food Industry Design, Technology and Innovation** Helmut Traitler, Birgit Coleman, Karen Hofmann, 2014-09-15 Food products have always been designed but usually not consciously Even when design has been part of the process it has often been restricted to considerations of packaging logos fonts and colors But now design is impacting more dramatically on the complex web that makes up our food supply and beginning to make it better Ways of thinking about design have broad applications and are becoming central to how companies compete To succeed food designers need to understand consumers and envision what

they want and to use technology and systems to show they can deliver what has been envisioned They also need to understand organizations in order to make innovation happen in a corporation The authors of this book argue that design has been grossly underestimated in the food industry The role of design in relation to technology of every kind materials mechanics ingredients conversion transformation etc is described discussed challenged and put into proper perspective The authors deftly analyze and synthesize complex concepts inspiring new ideas and practices through real world examples The second part of the book emphasizes the role of innovation and how the elements described and discussed in the first parts design technology business must join forces in order to drive valuable innovation in complex organizations such as large and not so large food companies Ultimately this groundbreaking book champions the implementation of a design role in defining and executing business strategies and business processes Not only are designers tremendously important to the present and future successes of food corporations but they should play an active and decisive role at the executive board level of any food company that strives for greater success
