Absent Minds:

Absent Minds Stefan Collini, 2006 An account of the question of intellectuals in 20th century Britain this book challenges the myth that there are no real intellectuals in Britain and offers an analysis of the intellectual as a concept as well as detailed discussions of influential figures such as T S Eliot George Orwell and Edward Said

Training minds for the war of ideas Clarisse Berthezène, 2024-06-04 This book examines attempts by the Conservative party in the interwar years to capture the brains of the new electorate and create a counter culture to what they saw as the intellectual hegemony of the Left It tells the fascinating story of the Bonar Law Memorial College Ashridge founded in 1929 as a College of citizenship to provide political education through both teaching and publications The College aimed at creating Conservative Fabians who were to publish and disseminate Conservative literature which meant not only explicitly political works but literary historical and cultural work that carried implicit Conservative messages This book modifies our understanding of the history of the Conservative party and popular Conservatism but also more generally of the history of intellectual debate in Britain It sheds new light on the history of the middlebrow and how that category became a weapon for the Conservatives

A World at War, 1911-1949 , 2019-03-27 In A World At War 1911 1949 leading and emerging scholars of the cultural history of the two world wars begin to break down the traditional barriers between the historiographies of the two conflicts identifying commonalities as well as casting new light on each as part of a broader mission in honour of Professor John Horne to expand the boundaries of academic exploration of warfare in the 20th century Utilizing techniques and approaches developed by cultural historians of the First World War this volume showcases and explores four crucial themes relating to the socio cultural attributes and representation of war that cut across both the First and Second World Wars cultural mobilization the nature and depiction of combat the experience of civilians under fire and the different meanings of victory and defeat Contributors are Annette Becker Robert Dale Alex Dowdall Robert Gerwarth John Horne Tom s Irish Heather Jones Alan Kramer Edward Madigan Anthony McElligott Michael S Neiberg John Paul Newman Catriona Pennell Filipe Ribeiro de Meneses Daniel Todman and Jay Winter See inside the book

Lerg, Johan Östling, Jana Weiß, Anne Kwaschik, Claudia Roesch, 2024-10-21 The third issue of the yearbook History of Intellectual Culture HIC devotes a thematic section to experimental spaces for knowledge production The articles in this section investigate the role of experimental environments as sites for knowledge production during the long nineteenth century thereby extending the scope beyond the confines of traditional academic institutions such as academies laboratories and universities By focusing on intentional communities colonial gardens agricultural colonies and artistic colonies as experimental spaces the authors investigate the intertwined social natural and aesthetic aspects of environments An overarching aim is to develop a distinct perspective rooted in the history of knowledge wherein experiments are conceptualized both as a category employed by the historical actors and as a
