**Blue by Fire: A Marker of the Technical History of Glass and Ceramics** Howell G. M. Edwards, Philippe Colomban, 2025-01-27 The use of natural mineral and synthetic blue pigments in antiquity for wall paintings and illuminated manuscript historiation evolved into the most suitable blue pigments for the decoration of glazed and enamelled wares, ceramics, glass and metal which required a stability at the high temperatures of the kilns used for glazing and firing. Historic literature is often vague regarding the blue pigments used for this purpose. The generic term cobalt blue covers a wide range of pigments that were actually used for the decoration of faience, majolica, stonewares, earthenwares and porcelains. This book addresses the application of elemental and molecular spectroscopic analytical techniques to a range of diverse problems which arise for decorated ceramics, glass and enamels and related artefacts: a history of techniques, provenance and authentication. The text contains an introduction to the important analytical techniques that are used in destructive and nondestructive analytical measurements and highlights potential future applications based upon novel miniaturised instrumentation for in situ studies. The book is co-authored by two international experts with many years experience in the application of analysis to artworks and archaeological artefacts and in the investigation of materials and sites for cultural heritage preservation. Among 19 chapters one is devoted to an evaluation of the analytical techniques that are used and the pitfalls which can arise in the interpretation of the data. The approach conveys the detailed information which has become available from the adoption of analytical techniques to diverse problems through the scientific interrogation of ceramic and related artefacts. Examples are given of how the pigment analysis and sourcing can provide unique information about ancient trade routes and pigment sourcing historically. A classic instance is provided by the transfer of European enamelling technologies carried out at the beginning of the 17th century in Japan (Arita) and at the turn of the 17th-18th centuries in China by the Jesuits established at the Court of respectively the Kyushu island of Daymiao and the Chinese Qing Emperor Kangxi. It has hence been demonstrated that some of the most beautiful porcelains emanating from Japan and China in this period incorporate blue decoration with pigments supplied from Europe. The interpretation of the analytical data can assist museum curators, archaeologists, art dealers, experts and cultural heritage historians in the preservation and conservation of ancient materials which have applied blue pigment decoration.

**Green and Smart Technology with Sensor Applications** Hyun-seob Cho, Tai-hoon Kim, Sabah Mohammed, Hojjat Adeli, Myoung-kwan Oh, Keun-Wang Lee, 2012-11-07 This book comprises the refereed proceedings of the two International Conference on Green and Smart Technology (GST 2012) and on Sensor and Its Applications (SIA 2012) held in Jeju Island, Korea in November-December 2012. The papers presented were carefully reviewed and selected from numerous submissions and focus on the various aspects of green and smart technology with sensor applications.

**Trip-Hop** R.J. Wheaton, 2022-11-17 Trip hop described some of the 1990s best

music and it was one of the decade's most revealing bad ideas. This book chronicles the music and its leading artists packed with recommended listening, essential tracks, great remixes, and under-recognized albums. Your playlists will soon be overflowing. Spectrum Culture: The music itself was an intoxication of beats, bass, and voice. It emerged amid the social tensions of the late 1980s and as part of hip-hop's rise to global dominance. It carried the innovations of Jamaican soundsystem culture, the sweet refuge of Lovers Rock, the bliss of club jazz dancefloors, and post-rave chill-out rooms. It went mainstream with Massive Attack, Portishead, Tricky, DJ Shadow, Kruder, and with record labels like Ninja Tune and Mo'Wax. To the artists' despair, the music was tagged with a silly label and packaged as music for the boutique and the lounge, made respectable with awards and acclaim. But the music, at its best, still sounds experimental and dramatic, and its influence lingers through artists like FKA twigs, Sevdaliza, James Blake, Billie Eilish, and Lana Del Rey. This short book is a guide to trip-hop in its context of the weird 1990s nostalgia and consumerism, pre-millennium angst, and lo-fi technology, casual exoticism, amid accelerating globalization and gentrification.

**Songs of Love and Horror** Will Oldham, 2018-10-09. The definitive collection of lyrics from three decades of songwriting. As a performer, songwriter, and actor, Will Oldham has carved a singular path through the worlds of indie folk and cinema. Now the critically acclaimed enigmatic artist presents his life's work: the lyrics to more than two hundred songs spanning the 1980s to the present, each with annotations that impart new meaning to his music. Oldham's aphoristic meditations on death, patience, and turning carelessness into a virtue are like his lyrics: profound, earthy, and often funny. They reveal flashes of Oldham's philosophy, the sources and circumstances that inspired his lyrics, and the literary ambition of his songwriting. Separated from their aural form, Oldham's lyrics become a new kind of poetry: candid, awkward, and wise, with influences as diverse as Rabindranath Tagore and The Mekons. A book that will delight his longtime fans and inspire young songwriters. *Songs of Love and Horror* reveals an artist who has captured extraordinary poetry in music, despite being a stranger among my own language.

*The Miles Davis Reader* Frank Alkyer, 2023-11-30. If you ever needed proof that a magazine can have a love affair with a musician, you're holding it in your hands. For *DownBeat*, the preeminent publication of the jazz world, Miles Dewey Davis was one of its most cherished subjects. Since it began covering the jazz scene in 1939, no other artist has been more diligently chronicled in its pages than Davis. The beauty of this collection is seeing the development of an artist over time. The reviews of his music go from quietly introducing a new talent to revering perhaps the greatest jazz artist of his generation. The feature articles begin with a very young, very polite Davis lamenting, "I've worked so little I could probably tell you where I was playing any night in the last three years." As he develops, the interviews show Davis gaining confidence and stature, showing swagger, and becoming the over-the-top, say-it-like-it-is showman that made every interview an event. *The Miles Davis Reader* compiles more than 200 news stories, feature articles, and reviews by some of the

greatest writers in jazz into one volume It delivers a patchwork of his words and music in the moment as they happened With several lengthy features added along with a dozen new photographs this new edition is a beautiful series of snapshots a year by year ride through the many phases of Davis as an artist and as a man
