Atkins,2003 **The Academic Library in the United States** Mark L. McCallon,John Mark Tucker,2022-10-10 This book advances the belief that the library more than any other cultural institution collects curates and distributes the results of human thought Essays broaden the debate about academic libraries beyond only professional circles promoting the library as a vital resource for the whole of higher education Topics range from library histories to explorations of changing media Essayists connect modern libraries to the remarkable dream of Alexandria s ancient library facilitating groundbreaking research in every imaginable field of human interest past present and future Academic librarians who are most familiar with historical traditions are best qualified to promote the library as an important aspect of teaching and learning as well as to develop resources that will enlighten future generations of readers The intellectual tools for compelling constructive conversation come from the narrative of the library in its many iterations from the largest research university to the smallest liberal arts or community college *Cooperative Collection Development* Donald B. Magowan,2007-02-13 Beginning in the early 1980s readers advisory services were a widely discussed topic in North American public libraries By 2005 almost every public library in the United States and Canada offered some form of readers advisory service The services offered have changed significantly in ways perhaps disadvantageous to adult North American library patrons This book provides a critical history of readers advisory philosophy and offers a new perspective on the evolution of the service The book analyzes the debate that shaped readers advisory and discusses how the service has assumed its present form The study follows readers advisory through its three prominent stages of development beginning with the period 1870 to 1916 when the service was still a subject of much crucial debate about its meaning and purpose During the second phase 1917 to 1962 readers advisory systematically committed itself to meaningful adult

education through serious and purposeful reading The book argues however that during the most recent phase of readers advisory from 1963 until the present contemporary public libraries have turned their backs on the rich heritage of readers advisory services by valorizing the reading of entertainment oriented and commodified genre titles and bestsellers Historical analysis case studies and statistical charts augment the book s central argument Selection of Library Materials in the Humanities, Social Sciences, and Sciences Patricia A.
