## **Access 97 A Comprehensive Approach:**

*Trade, Inequality and Justice: Toward a Liberal Theory of Just Trade Law* Frank Garcia, 2021-10-25 Recent crises in trade policy and globalization highlight both the problematic role of economic inequality in international trade law and the shortcomings of contemporary largely economic approaches to this problem and to international trade law generally This book argues for an alternative approach to the problem of trade and inequality as a problem of justice Drawing on political and moral theory and legal philosophy the author develops a Rawlsian model for justice as fairness in international trade law This model highlights the important normative role of the principle of special and differential treatment which can justify economic inequality by making the wealthy markets of developed states work to the benefit of smaller economies thus satisfying the difference principle as applied to international economic relations Applying this model to contemporary trade law the author offers concrete proposals for modifying existing special and differential treatment doctrine and suggests second generation policies for the problem of inequality once special and differential treatment is either fully implemented or rendered obsolete Published under the Transnational Publishers imprint

**Design, Disability and Embodiment** Janice Rieger, 2023-07-31 This timely book explores the spatial and social injustices within our streets malls schools and public institutions Taken for granted acts like going for a walk seeing an exhibition with a friend and going to school are for people with disabilities conditional or precluded acts due to exclusion by design This book stimulates debate and discussion about current practice and studies in spatial design in the context of disability and the growing need for inclusive design globally Case studies of inclusive design in spaces like museums malls galleries and universities are presented to challenge and expose the perspectives of power and spatial injustices that still exist within these spaces today The international case studies presented purposely privilege the voices and perspectives of people with disabilities to expose the multisensorial perspectives of spatial justice in order to understand inclusion more holistically through embodiment If you are an architect designer arts educator curator or museum professional or just want a world where spatial justice is possible then this book will provide you with a new perspective of spatial design through critical disability studies allyship and codesign where tangible approaches and practices for inclusive design are explored
