Accountability In Urban Society Public Agencies Under Fire:

Accountability in Urban Society Scott Greer, Ronald D. Hedlund, James Gibson, 1978-12-01 There are many indications that a large and influential body of notables and common citizens are disturbed by the imputed lack of accountability of the very public bodies and publicly certified professions that are supposed to meet their needs This volume examines the emerging problems encountered by public agencies in responding to demands for increased accountability in their conduct of other people s business

Controlling Bureaucracies Judith Gruber, 2023-04-28 *Controlling Bureaucracies Dilemmas in Democratic Governance* offers a deep dive into the challenges and complexities of reconciling democratic ideals with the increasing influence of bureaucratic institutions This book critically examines how modern democracies can maintain accountability and public control over unelected bureaucrats who wield significant power in shaping public policy With vivid examples and rigorous analysis the text explores the tension between the efficiency of bureaucracies and the democratic principle of government by the people From the delegation of decision making power to mechanisms for oversight and accountability the book outlines the evolving strategies for achieving democratic control in an age of sprawling administrative structures Key themes include the rise of bureaucratic autonomy the challenges of aligning bureaucratic actions with public expectations and the need for innovative approaches to governance Through interdisciplinary insights the author addresses the broader implications of these dynamics for democratic theory and practice Whether analyzing historical developments or proposing frameworks for contemporary governance *Controlling Bureaucracies* is an essential resource for policymakers scholars and anyone concerned with the future of democracy in a bureaucratized world This title is part of UC Press s *Voices Revived* program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1987

Promoting Productivity in the Public Sector Rita Mae Kelly, 1988-06-18 *Public Sector Accountability*, 1985 *Western Sociological Review*, 1978 *WSR, Western Sociological Review*, 1979 *Law Books Published*, 1979

Paperbound Books in Print, 1984 *Measuring Performance and Effectiveness* Derick W. Brinkerhoff, 1979

British Books in Print, 1985 *Basic Issues in Police Performance*, 1982 Since the complexity of police services does not lend itself to standardized performance measures measurement techniques should be designed to inform more about what police do and how they affect their communities This report reviews conventional police measurement practices and offers ways to improve the management value of performance information Traditional performance measurement has emphasized the measurement of individual departments effectiveness in preventing crime This approach fails to consider the broad range of other police duties citizens expectations of police and how police activities produce social change Police can be evaluated in terms of efficiency effectiveness equity and accountability but citizens disagree about which of these

performance criteria are the most important because community police problems are too diverse. Instead of developing uniform inflexible performance standards to apply globally to entire departments, evaluators should ask more detailed questions about common police processes and their results. Sketchy knowledge of how policing works now produces many hypotheses but rarely standards worthy of emulation. Evaluators should develop better theories about police functions, obtain more reliable data, and control data collection costs with the aid of police managers so that measures inform departmental policymakers. Tables, diagrams, and 197 references are given. Appendixes include police services study data and a list of problem codes.

Researching Street-level Bureaucracy Mike Rowe, 2024-12-30. Police officers, social workers, teachers, and many other street-level bureaucrats exercise discretion in dealing with clients. In so doing, they make policy as it is experienced at the frontline. Instead of puzzling at repeated public policy implementation failures and wondering why street-level bureaucrats (SLBs) don't behave the way policy makers expect, we need to understand the world as seen from the ground. This short and practical text explores the value of interpretive analysis for researching street-level bureaucracy. Using Michael Lipsky's 1980 idea of SLB and connecting it to contemporary debates, Mike Rowe argues for an approach to researching SLBs that focuses on dilemmas in practice—ones that change with each policy shift, each new target with austerity, and with new technology such that no settled state is likely. He places emphasis on the need to understand the ways SLBs respond to pressures in order to work with them and to understand what policy becomes in practice. Street-level bureaucrats and their clients are engaged in a process of sense-making. Researching Street-level Bureaucracy is not just an essential resource for teachers and students of Master's and Doctoral programs in Public Administration, Public Policy, Social Work, and Criminal Justice; it is a must-read for anyone interested in understanding the structural pressures that bear on the individual and how any change to the dilemmas confronted might play out at the street level.

Directions, 1979. Program Planning for Health Education and Promotion Mark B. Dignan, Patricia A. Carr, 1992. The definitive work on occupational therapy for physical dysfunction is back in a Fifth Edition with reputable co-editors and outstanding clinical, academic, and consumer contributors. Through the Occupational Functioning Model, this edition continues to emphasize the conceptual foundation of practice. The text provides a current and well-rounded view of the field from theoretical rationale to evaluation, treatment, and follow-up. New to this edition: cutting-edge therapies and up-to-date research findings; International Classification of Functioning, Disability, and Health (ICIDH-2) language and concepts; assessment and intervention directed toward context; a two-color design; and abundant learning aids, including case examples and procedures for practice.
