Accounting and Financial Reporting in a Changing Environment Stanley C.W. Salvary, 2005 Over time a changing environment has produced changes in the types of accounting information and in the dissemination of such information financial reporting Certain changes in the environment do impel changes in accounting This paper examines various theoretical issues in accounting in a historical setting and provides some insight on the manner in which the accounting profession has responded to problems

Perspectives on Financial Control Mahmoud Ezzamel, David Heathfield, 2013-12-14 The purpose of this book is to offer a small token in memory of Ken Hilton who died prematurely at the age of 52 in February 1990 The book contains contributions from a number of leading academics some were close colleagues of Ken s at the University of Southampton some have been at other universities but knew Ken fairly well and still some who never met Ken but who knew of him through his work The unifying motivation for all of them however was their immense sense of loss of an extremely proactive and excellent academic Having led the research group on the Southampton Econometric Model project for three years Ken was appointed to the Chair of Financial Control at the University of Southampton in 1970 at that time this was one of only a handful of similar Chairs in the UK Most of Ken s subsequent academic career was devoted to contributing to the study of financial control initially in the private sector and subsequently in the public sector The breadth of his interests was demonstrated by his enviable ability to contribute to the areas of industrial economics accounting and management science We hope therefore that this volume which embraces contributions from leading academics in each of these three fields is a fitting tribute to Ken s work

A History of Financial Accounting (RLE Accounting) J. Edwards, 2013-12-04 This volume deals with the evolution of accounting from earliest times and gives particular attention to corporate accounting developments since the Industrial Revolution The author

identifies the various sources of accounting practices employed by British companies to demonstrate the main changes which have taken place when they occurred and why The author emphasises the need to understand the legal social and economic context in which accountancy changes take place and also studies the conflicts which arise between suppliers and users of accounting statements The study concludes with an examination of the duties performed by the professional accountant the extent to which these have changed in the course of time and how his position in society is reinforced by the activities of professional institutions
