## **Achieving Educational Equality:**

**Achieving Educational Equality** Herbert Grossman, 1998      *How to Achieve Educational Equity* Howard Fields, 3rd, 2021-04-09

As educators we must be as specific as possible when using certain terms especially when those terms and our knowledge of them hold the keys to so many students success Considered by many to be one of the most important concepts in education to understand and apply educational equity is a term that we are all familiar with but may also have a plethora of meanings depending upon the context in which it is used Educational equity can be a lot of things but it is certainly not the popular and overutilized image that depicts kids watching a baseball game while standing on boxes To frame it in this manner oversimplifies the complexities associated with educational equity Educational equity must be more intentional than that and thus should be defined as creating and or eliminating policies systems and practices in schools that impact the experiences outcomes and access to resources for students from previously excluded groups On April 9th *How to Achieve Educational Equity* will provide educational experiences and actionable steps to help all those who have decided to embark on the educational equity journey The author Dr Howard E Fields III possesses the reputability knowledge credentials and writing prowess to adequately convey such an important topic that will certainly challenge our thinking and enhance learning outcomes for all students As an Assistant Superintendent of Human Resources Adjunct Professor Co founder of both Black Males in Education St Louis BMESTL and EduOpenings com his perspective and focus on remaining student centered yet equity focused has made him an emerging sought out speaker Dr Fields unapologetic leadership and authenticity played a role in being recognized as the 2020 National Elementary Distinguished Principal from Missouri and the 2017 International Networked Digital Library of Thesis and Dissertation innovative research award recipient Given all of this *How to Achieve Educational Equity* will certainly be a successful resource in the education and educational policy area for years to come Early feedback from educational practitioners includes the following review *How to Achieve Educational Equity* is truly a thought provoking and practical call to action that will benefit many educators for years to come regardless of where they are in their understanding of equity Dr Fields has created a concrete framework equipped with multiple entry points into taking action towards achieving equity in schools This book makes inequities arguably the most insurmountable issue in education to date feel possible to tackle through courage collaboration and accountability Thank you Dr Fields for your contribution to the field of education Dr Shenita Mayes Middle School Principal

Dyson, Daniel B. Weddle, 2009 With the reauthorization and possible impending repeal of the No Child Left Behind Act in the next presidential administration and the Supreme Court s recent education pronouncements involving race in K 12 education and higher education along with the mounting concerns regarding school finance and testing this compendium of works by nationally distinguished contributors leading thinkers and policymakers who hail from a broad variety of disciplines represents the first effort to explore educational law through the interrelated fields of critical race education sociology civil rights pedagogical theory and law Contributors include William Kaplan Maurice Dyson Preston Green Bruce Baker Angela Onwuachi Willig Verna Williams Victoria Dodd Molly O Brien and several more with a foreword by T K Daniels This critical reader of scholarly

articles essays and critiques explores the intractable issues in the landscape of educational equality including school finance special education affirmative action desegregation curricular reform and bilingual education through the prism of race ethnicity language disability socioeconomic status sex and gender Written by and for educators and policymakers Our Promise is an ideal seminar text or companion piece for education civil rights sociology economics and race oriented interdisciplinary courses An indispensable classroom tool for comprehending policy discussions Our Promise is also well suited for adoption in undergraduate and graduate education schools and public policy administration programs across the nation This edited volume provides a thought provoking collection of papers by expert legal scholars and serves as a reminder of the extensive work that is yet to be accomplished in the evaluation of educational policy The authors encourage us to take a second look at the research surrounding the topics of equality in education and urge us to examine the benchmarks of progress so as to gauge next steps and possible new directions in educational achievement In a sense this is a compilation of works that serve as a reminder that the nation's growth and its history will be measured not by its pre- and post-1965 support of educating a select few in education but instead by establishing the bright light of accountability and our commitment to every student by advocating for the full embodiment of equality in education Philip T K Daniel Adjunct Professor of Law The Ohio State University [Achieving Educational Excellence](#) Alexander W.

Astin,1985-04-30 **The Role of the Commission in Achieving Educational Equity** California Postsecondary Education Commission,1988 *Implementing Title IX and Attaining Sex Equity* Shirley D. McCune,1978 **Achieving Equity and Justice in Education Through the Work of Systems Change** Jennifer Neitzel,2020 In *Achieving Equity and Justice in Education through the Work of Systems Change* Dr Neitzel contends that our nation is at a crossroads Do we continue with the band aid approach to equity that is focused on implementing isolated intervention programs aimed at reducing the achievement gap Or do we embrace systems change which requires us to focus on disrupting the roots that are sustaining deep disparities between Black and White students She guides readers through the history of the educational system to facilitate a greater understanding about how barriers have morphed to disadvantage Black students and why systems change is necessary to address racial inequities within our schools She lays out a systems change framework that provides the path forward for educational leaders teachers policy makers and community members *The Work* identifies key issues that must be addressed and offers a revolutionary new way of thinking about how to bring about lasting change for all students

**Controlling Public Education** Kathryn A. McDermott,1999 Most Americans believe that local school districts are the only means by which citizens may exercise control over public education Kathryn McDermott argues to the contrary that existing local institutions are no longer sufficient for achieving either equity or democratic governance Not only is local control inequitable it also fails to live up to its reputation for guaranteeing public participation and citizen influence Drawing upon democratic theory and the results of field research in New Haven Connecticut and three suburbs McDermott contends

that our educational system can be made more democratic by centralizing control over funding while decentralizing most authority over schools to the level of schools themselves while enacting public school choice controlled for racial balance To many people in Connecticut and elsewhere the tension between equal opportunity for all students and local control of public education seems impossible to resolve In 1996 the Connecticut Supreme Court ruled in *Sheff v O Neill* that local control produces unconstitutional segregation of public schools Nearly all of the state s 169 towns operate their own public schools and like the towns they serve the schools are generally homogeneous with respect to race and socioeconomic class In the *Sheff* ruling the court declared that making school districts coterminous with town lines is the single most important factor contributing to the present concentration of racial and ethnic minorities in the Hartford public school system At the same time the court also acknowledged that the town based school system presently furthers the legitimate nonracial interests of permitting considerable local control and accountability in educational matters In Connecticut and elsewhere it has often seemed necessary to choose between local control and equity in public education and local control has almost always won McDermott argues that rather than seeing local control and equity as conflicting goals policymakers should regard them as equally important components of democracy in public education In her view a truly democratic system of education should both encourage citizen participation in school governance and contribute to the formation and maintenance of a social order in which equality of opportunity prevails over hierarchies of privilege Centralizing distribution of resources and using controlled choice to end racial isolation would provide greater equality of opportunity while decentralizing management of schools would expand citizen participation McDermott s conclusions break new ground in our understanding of local school governance itself and call into question the conventional wisdom about local participation These findings should interest those who study school governance and reform especially in an urban setting as well as policy makers administrators teachers students and citizens eager to improve their schools

Outcome Equity in Education Robert Berne,1994-11-03 The education system in the United States and its principle of creating equal opportunity in a democratic society is failing many children Dissatisfaction with the system has never been higher Based on a study of New York schools this comprehensive book examines how social justice issues relate to outcome equity in education and suggests ways of using resources more effectively in order to improve learning results

Changing Urban Education Clarence Nathan Stone,1998 With critical issues like desegregation and funding facing our schools dissatisfaction with public education has reached a new high Teachers decry inadequate resources while critics claim educators are more concerned with job security than effective teaching Though urban education has reached crisis proportions contending players have difficulty agreeing on a common program of action This book tells why *Changing Urban Education* confronts the prevailing naivete in school reform by examining the factors that shape reinforce or undermine reform efforts Edited by one of the nation s leading urban scholars it examines forces for change and resistance in urban education and proposes that the barrier to reform can only be

overcome by understanding how schools fit into the broader political contexts of their cities Much of the problem with our schools lies with the reluctance of educators to recognize the profoundly political character of public education The contributors show how urban political contexts vary widely with factors like racial composition the role of the teachers union and relations between cities and surrounding metropolitan areas Presenting case studies of original field research in Baltimore Chicago Houston and six other urban areas they consider how resistance to desegregation and the concentration of the poor in central urban areas affect education and they suggest how cities can build support for reform through the involvement of business and other community players By demonstrating the complex interrelationship between urban education and politics this book shows schools to be not just places for educating children but also major employers and large spenders of tax dollars It also introduces the concept of civic capacity the ability of educators and non educators to work together on common goals and suggests that this key issue must be addressed before education can be improved Changing Urban Education makes it clear to educators that the outcome of reform efforts depends heavily on their political context as it reminds political scientists that education is a major part of the urban mix While its prognosis is not entirely optimistic it sets forth important guidelines that cannot be ignored if our schools are to successfully prepare children for the future

**Multicultural Education** Cherry A. McGee Banks, 1997-01-15 Edited by two leading authors in the field the third edition of this text offers a comprehensive view of multicultural education It addresses the needs of readers from both gender groups various social classes religions and ethnic and cultural groups
