

IDENTITY ACHIEVEMENT

Identity achievement is the successful establishment of a coherent and integrated sense of self, characterized by a clear understanding of one's values, goals, beliefs, and sense of identity.

OVERVIEW

Identity achievement refers to the stage of Erikson's psychosocial development, where individuals have successfully resolved the identity crisis and have established a firm sense of who they are. It involves a process of exploration and decision-making, where individuals actively seek out and make choices regarding their values, interests, career paths, and overall life direction.

EXAMPLES

- **Career Choice:** A man has a deep respect for teachers. Eventually, he decides to commit to a career in education to inspire future generations.
- **Religious Commitment:** After exploring various faiths and spiritual practices, a woman decides to convert to Buddhism, finding it aligns with her personal beliefs and aspirations.

Of Identity:

Grammars of Identity/alterity Gerd Baumann, André Gingrich, 2004 Deals with the issues of the construction of Self and Other in the context of social exclusion of those perceived as different This collection focuses on one theoretical proposition namely that the seemingly universal processes of identity formation and exclusion of the other can be differentiated according to three modalities *Routledge Handbook of Identity Studies* Anthony Elliott, 2012-04-27 The Routledge Handbook of Identity Studies offers an exceptionally clear overview of the analysis of identity in the social sciences and in so doing seeks to develop a new agenda for identity studies in the twenty first century The key theories of identity ranging from classical accounts to postmodern psychoanalytic and feminist approaches are drawn together and critically appraised and there are substantive sections looking at racial ethnic gendered queer consumerist virtual and global identities The Handbook also makes an essential contribution to the debate now opening up over identity politics and its cultural consequences From anti globalization protestors to new ecological warriors from devotees of therapy culture to defenders of international human rights the culture of identity politics is fast redefining the public political sphere What future for politics is there after the turn to identity Throughout there is a strong emphasis on interdisciplinarity with essays covering sociology psychology politics cultural studies and history The Handbook's clear and direct style will appeal to a wide undergraduate audience in the social sciences and humanities *Encyclopedia of Identity* Ronald L. Jackson II, 2010-06-29 The two volumes of this encyclopedia seek to explore myriad ways in which we define ourselves in our daily lives Comprising 300 entries the Encyclopedia of Identity offers readers an opportunity to understand identity as a socially constructed phenomenon a dynamic process both public and private shaped by past experiences and present circumstances and evolving over time Offering a broad comprehensive overview of the definitions politics manifestations concepts and ideas related to identity the entries include short biographies of major thinkers and leaders as well as discussions of events personalities and concepts The Encyclopedia of Identity is designed for readers to grasp the nature and breadth of identity as a psychological social anthropological and popular idea Key Themes Art Class Developing Identities Gender Sex and Sexuality Identities in Conflict Language and Discourse Living Ethically Media and Popular Culture Nationality Protecting Identity Race Culture and Ethnicity Relating Across Cultures Religion Representations of Identity Theories of Identity **Handbook of Identity Theory and Research** Seth J. Schwartz, Koen Luyckx, Vivian L. Vignoles, 2011-06-22 Identity is one of the most extensively studied constructs in the social sciences Yet despite the wealth of findings across many disciplines identity researchers remain divided over such enduring fundamental questions as What exactly is identity and how do identity processes function Do people have a single identity or multiple identities Is identity individually or collectively oriented Personally or socially constructed Stable or constantly in flux The Handbook of Identity Theory and Research offers the rare opportunity to address the questions and reconcile these seeming contradictions bringing unity and clarity to a diverse and fragmented literature

This exhaustive reference work emphasizes the depth and complexity of identity processes and domains and presents perspectives from many different theoretical schools and empirical approaches. Contributing authors provide perspectives from psychology e.g. narrative social identity theory, neo-Eriksonian and from other disciplines e.g. sociology, political science, ethnic studies, and the editors highlight the links between chapters that provide complementary insights on related subjects. In addition to covering identity processes and categories that are well known to the field, the Handbook tackles many emerging issues including Identity development among adopted persons, Identity processes in interpersonal relationships, Effects of globalization on cultural identity, Transgender experience and identity, Consumer identity and shopping behavior, Social identity processes in xenophobia and genocide. The Handbook of Identity Theory and Research lends itself to a wealth of uses by scholars, clinicians, and graduate students across many disciplines including social developmental and child school psychology, human development and family studies, sociology, cultural anthropology, gender, ethnic and communication studies, education and counseling.

Iraqi Christian Minority and Identity: A Critical Discourse Analysis of Selected English and Arabic Novels Nassier Al-Zubaidi, Marwa Al-Bazzaz, 2023-04-21. Doctoral Thesis Dissertation from the year 2022 in the subject English Language and Literature Studies, Linguistics, University of Baghdad. Language: English. Abstract: The study of identity within a given discourse is one of the significant topics in the field of critical discourse analysis. Iraqi Christian identity has undergone various political and social changes during different historical periods, leading to the emergence of the Christian identity as a minority in society. The present study investigates the representation of the identity of the Iraqi Christian minority in the narrative discourse of selected English and Arabic novels. More precisely, the present study is a critical discourse analysis of the Christian identity as a minority in selected English and Arabic novels, namely the English novel *Abducted in Iraq* by Saad Hanna (2017) and the Arabic novel *The American Granddaughter* by Inaam Kachachi (2009). The study aims at first identifying the identity representation of the Iraqi Christian minority in the narrative discourse of selected English and Arabic novels before and after the 2003 war; second, investigating the textual resources and their role in the identity construction of the Iraqi Christian minority in the narrative discourse of selected English and Arabic novels before and after the 2003 war; third, identifying the discursive resources and their role in the identity construction of the Iraqi Christian minority in the narrative discourse of selected English and Arabic novels before and after the 2003 war; fourth, examining the social resources and their role in the identity construction of the Iraqi Christian minority in the narrative discourse of selected English and Arabic novels before and after the 2003 war. That is, it examines the role played by power and social dynamics in the identity construction under analysis; and fifth, investigating similarities and differences in the identity construction of the Iraqi Christian minority in the narrative discourse of selected English and Arabic novels before and after the 2003 war at the textual, discursive, and social levels of analysis. For achieving the aforementioned aims, a purposive sampling technique is used to choose the most representative data from the selected English and Arabic novels. The data is analysed according to a synthesised theoretical framework.
