## Of Kings 1:

The First Book of Kings Martin Sicker, 2017-07-21 The subject of this study is the prophetic history of the succession of Solomon to the throne of the dual monarchy established by David over the kingdoms of Israel and Judah the centralization of Israelite religion in the Temple of Jerusalem the collapse of the dual monarchy after the death of Solomon the subsequent stories of the numerous kings of Israel and Judah and especially the severe interactions of the kings of Israel from Jeroboam to Ahab c 932c 855 BCE with the prophets Ahijah Elijah and Micaiah as presented in the Masoretic text of the biblical First Book of Kings The term prophetic history is employed to describe the subject because prophecy in biblical thought is not fatalistic and does not predict future events What it does do is assert that the moral course that a society chooses to follow in the present can determine its probable but not inevitable future The purpose of the biblical book is to inform the reader of the historical consequences of the failure to observe the terms of the divine covenant entered into between God and the children of Israel at Mount Sinai following the exodus from Egypt Although the narrative is based on events that were believed to have taken place the primary focus of prophetic history is on the moral implications of the decisions taken by men rather than the factual accuracy of the details of the events described which have been studied exhaustively by archaeologists and historians of the ancient world *Life, Land, and Elijah in the Book of Kings* Daniel J. D. Stulac, 2020-12-10 Using a canonical agrarian approach Stulac demonstrates the rhetorical and theological contribution of the Elijah narratives to the Book of Kings **The Books of Kings** André Lemaire, Baruch Halpern, Matthew Joel Adams, 2010 This collaborative commentary on or dictionary of Kings explores cross cutting aspects of Kings ranging from the analysis of its composition historically regarded to its transmission and reception Ample attention is accorded sources figures and peoples who play a part in the book The commentary deals with Kings treatment in translation and role in later ancient literature While our comments do not proceed verse by verse the volume furnishes guidance from contributors highly qualified to advance contemporary discussion on the book s historical background its literary intentions and characteristics and on themes and motifs central to its understanding both of itself and of the world from which it arose This volume functions as a meta commentary offering windows into the secondary literature but assembling data more fully than is the case in individual commentaries **Language System, Translation Technique, and Textual Tradition in the Peshitta of Kings** Janet W. Dyk, Percy S.F. van Keulen, 2013-08-15 Using the VU University syntactically analyzed hierarchically structured database of ancient languages the authors compared the Masoretic text of Kings to the Syriac Peshitta translation The core question in this comparison is which deviations between the two texts are related to the requirements of the distinct language systems which are related to other aspects of the translation process and which are related to the transmission history of the translated text Though linguistic and text historical approaches differ in method and focus research into ancient biblical translations must take both into account On the basis of a synoptic matching at clause level corresponding

phrases within the clauses are matched and corresponding words within phrases A choice out of a wealth of detailed differences thus brought to light are discussed at the syntactic level at which the phenomenon best fits word phrase clause and above the clause
