

Of The Crossbow

Sir Ralph Payne-Gallwey

Of The Crossbow:

The Book of the Crossbow Ralph Payne-Gallwey,1995-01-01 This fascinating study the only book devoted exclusively to the crossbow traces its use as a military and sporting weapon as well as its construction and management in medieval and modern times The work also covers such related weapons as the balista catapult Turkish bow and more Over 240 illustrations

The Crossbow Ralph Payne-Gallwey,2007-04-17 An accomplished engineer describes military and sporting crossbows their construction use and history Comprehensively illustrated with original drawings This unique exploration of a weapon used for centuries will fascinate historians and enthusiasts alike The crossbow probably introduced to England by the Norman invaders in 1066 was once considered so barbarous that it was prohibited as a weapon hateful to God and unfit for Christians Sir Ralph Payne Gallwey an accomplished engineer here describes military and sporting crossbows and their dimensions components and ranges provides hard to find information on crossbow construction gives details about modern crossbows such as bullet shooting crossbows and bolt shooting crossbows and peeks at unusual crossbows like the Chinese repeating crossbow Comprehensively illustrated with original drawings and selections from historical manuscripts this is a necessary reference book for anyone who hunts with a crossbow or collects or studies weapons of the past Skyhorse Publishing as well as our Arcade imprint are proud to publish a broad range of books for readers interested in history books about World War II the Third Reich Hitler and his henchmen the JFK assassination conspiracies the American Civil War the American Revolution gladiators Vikings ancient Rome medieval times the old West and much more While not every title we publish becomes a New York Times bestseller or a national bestseller we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home **The Crossbow, Mediaeval and**

Modern, Military and Sporting Sir Ralph Payne-Gallwey,1903 *The Medieval Crossbow* Stuart Ellis-Gorman,2022-07-20 An in depth illustrated history and technical study of this iconic weapon of the Middle Ages The crossbow is an iconic weapon of the Middle Ages and alongside the longbow one of the most effective ranged weapons of the pre gunpowder era Unfortunately despite its general fame it has been decades since an in depth history of the medieval crossbow has been published which is why Stuart Ellis Gorman s detailed accessible and highly illustrated study is so valuable The Medieval Crossbow approaches the history of the crossbow from two directions The first is a technical study of the design and construction of the medieval crossbow the many different kinds of crossbows used during the Middle Ages and finally a consideration of the relationship between crossbows and art The second half of the book explores the history of the crossbow from its origins in ancient China to its decline in sixteenth century Europe Along the way it explores the challenges in deciphering the crossbow s early medieval history as well as its prominence in warfare and sport shooting in the High and Later Middle Ages This fascinating book brings together the work of a wide range of accomplished crossbow scholars and incorporates the author s own original research to create an account of the medieval crossbow that will appeal to anyone

looking to gain an insight into one of the most important weapons of the Middle Ages The History of the Crossbow Clarence Martin Wilbur,1937 The Book of the Crossbow Ralph Payne-Gallwey,2012-06-14 Fascinating study traces history and use of crossbow as military and sporting weapon from Middle Ages to modern times Also covers related weapons balistas catapults Turkish bows more Over 240 illustrations **The Crossbow** Mike Loades,2018-03-09 Technologically sophisticated and powerful the crossbow has long enjoyed a popular reputation for villainous superiority because it could be used with little training as a weapon of assassination The study of bow designs trigger mechanisms and spanning devices reveals a tale of considerable mechanical ingenuity advances that produced a battlefield weapon requiring comparatively little training to use It was an extremely useful weapon and especially effective in siege warfare for both attack and defence Known to the Ancient Greeks and the Chinese as early as the 5th century BC the crossbow developed both in Western Europe and in the Far East Advances in trigger mechanisms spanning and bow design allowed the development of ever more powerful bows In this study acknowledged weaponry expert Mike Loades traces the origins development combat record and lasting legacy of the crossbow the formidable projectile weapon that played a key role in a host of battles and sieges across Europe and Asia **The Crossbow** Sir Ralph Payne-Gallwey,1968 *The Crossbow* Sir Ralph Payne-Gallwey,1903

Appendix to The Book of the Crossbow and Ancient Projectile Engines (History of Archery Series) Ralph Payne-Gallwey,Horace A. Ford,2017-09-06 This vintage book contains a detailed treatise on the crossbow being a historical account of its development and evolution throughout the centuries The crossbow was a revolutionary advancement in ballistic weaponry which was arguably the forerunner to hand held guns This volume explores its history and discusses how its design and development varied from country to country Contents include The Slurbow The Sixteenth century Sporting Crossbow The Cranequin and How it was Applied to Bend the Steel Bow of a Crossbow The Sixteenth and Early Seventeenth Century Spanish Sporting Crossbow with a Steel Bow of Moderate Strength which was Bent by a Cranequin et cetera Many vintage books such as this are becoming increasingly scarce and expensive We are republishing this volume now in an affordable modern edition complete with an introductory essay on History of Archery by Horace A Ford The Crossbow, Mediaeval and Modern, Military and Sporting Sir Ralph Payne-Gallwey,1958 **The Book of the Crossbow** Ralph Payne-Gallwey,1995 *History of the Crossbow* C.Martin Wilbur,1936-06-01 *The Collection of Primitive Weapons and Armor of the Philippine Islands in the United States National Museum* Herbert William Krieger,1926 The primary objective to this handbook is to describe various weapon types that have preserved in metal wood horn and bone traces of the material culture of the several waves of civilization that have reached the Philippines in the past The second objective of this catalogue of Philippine weapons of offense and defense is to describe the typical originality of form the skill displayed in weapon manufacture and the beauty of ornamental patterns produced in the islands but characteristic of the localities in which they are made and used *The origin of West African crossbows ...* Henry Balfour,1911 **The Crossbow of Ulrich**

V., Count of Wurtemberg, 1460 Charles Alexander Baron de Cosson,1893 *The Crossbow, Mediaeval and Modern, Military and Sporting* Sir Ralph Payne-Gallwey,1958 Talks about its construction history management with a treatise on the balista and catapult of the ancients and an appendix on the catapult balista and the Turkish bow **The Early Norman Castles of the British Isles** Ella S. Armitage,1912 *EUROPEAN HAND FIREARMS OF THE 16TH, 17TH & 18TH Centuries* HERBERT J. JACKSON,1923 **The Crossbow** Ralph Payne-Gallwey,1964
