**The Next Everest** Jim Davidson, 2021-04-20 A dramatic account of the deadly avalanche on Everest and a return to reach the summit On April 25 2015 Jim Davidson was climbing Mount Everest when a 7.8 magnitude earthquake released avalanches all around him and his team destroying their only escape route and trapping them at nearly 20 000 feet It was the largest earthquake in Nepal in eighty one years and killed nearly 8 900 people That day also became the deadliest in the history of Everest with eighteen people losing their lives on the mountain After spending two unsettling days stranded on Everest Davidson's team was rescued by helicopter The experience left him shaken and despite his thirty three years of climbing and serving as an expedition leader he wasn't sure that he would ever go back But in the face of risk and uncertainty he returned in 2017 and finally achieved his dream of reaching the summit Suspenseful and engrossing *The Next Everest* portrays the experience of living through the biggest disaster to ever hit the mountain Davidson's background in geology and environmental science makes him uniquely qualified to explain why the seismic threats lurking beneath Nepal are even greater today But this story is not about conquering the world's highest peak Instead it reveals how embracing change challenge and uncertainty prepares anyone to face their next Everest in life **Argosy** Frank Andrew Munsey, 1884
