Rhetoric in English Poetry Brian Vickers, 1989 Back in print after 17 years this is a concise history of rhetoric as it relates to structure genre and style with special reference to English literature and literary criticism from Ancient Greece to the end of the 18th century The core of the book is a quite original argument that the figures of rhetoric were not mere mechanical

devices were not as many believed a nuisance a quite sterile appendage to rhetoric to which unaccountably teachers pupils and writers all over the world devoted much labor for over 2 000 years Rather Vickers demonstrates rhetoric was a stylized representation of language and human feelings Vickers supplements his argument through analyses of the rhetorical and emotional structure of four Renaissance poems He also defines 16 of the most common figures of rhetoric citing examples from the classics the Bible and major English poets from Chaucer to Pope

Reading Poetry, Writing Genre Silvio Bär, Emily Hauser, 2018-12-27 This ground breaking volume connects the situatedness of genre in English poetry with developments in classical scholarship exploring how an emphasis on the interaction between English literary criticism and Classics changes sharpens or perhaps even obstructs views on genre in English poetry Genre has classical roots both in the etymology of the word and in the history of genre criticism which begins with Aristotle In a similar vein recent developments in genre studies have suggested that literary genres are not given or fixed entities but subjective and unstable as well as historically situated and that the reception of genre by both writers and scholars feeds back into the way genre is articulated in specific literary works Classical scholarship literary criticism and genre form a triangle of key concepts for the volume approached in different ways and with different productive results by contributors from across the disciplines of Classics and English literature Covering topics from the establishment of genre in the Middle Ages to the invention of female epic and the epyllion and bringing together the works of English poets from Milton to Tennyson to Josephine Balmer the essays collected here argue that the reception and criticism of classical texts play a crucial part in generic formation in English poetry

English Poetry of the Victorian Period, 1830-1890 Bernard Arthur Richards, 1988

A Literary History of England Albert Croll Baugh, 1948 The purpose of this book is to provide a comprehensive history of the literature of England an account that is at once scholarly and readable capable of meeting the needs of mature students and of appealing to cultivated readers generally While the literature of England is commonly thought of as literature in English it is not likely that anyone will quarrel with the fact that some mention is made of writings in Latin and French during the medieval period at a time when these languages served as vernaculars for certain classes The Latin writings of the

Renaissance and later periods however have been omitted for lack of space Nor will anyone object to the inclusion of Scottish and Irish writers who do not belong geographically to England Custom sufficiently sanctions including them The original plan brought the history to an end with the year 1939 the outbreak of the Second World War but delay in publication caused by the war has permitted reference to a few events of a date subsequent to 1939 Preface Approaches to Teaching Poe's Prose and Poetry Jeffrey Andrew Weinstock, Tony Magistrale, 2008 Edgar Allan Poe is a popular author and students have often read his work by the time they reach the college or university classroom His writings have inspired film television and musical adaptations sources for much of students knowledge about Poe Thus the challenge for teachers is to reacquaint students with Poe as a complex literary figure This volume equips teachers with the tools necessary to meet that challenge Part 1 identifies the most frequently taught Poe texts reviews useful editions of his work and suggests secondary sources on Poe as well as television film music and Web materials for use in the classroom Essays in part 2 explore the relation between Poe s writing and his biography including his attitudes toward racial difference and plagiarism and his wide publication in the literary magazines of his time Contributors consider the range of Poe s writings from his horror stories to his analytic essays and tales of ratiocination his work is also compared with that of Stephen King Alfred Hitchcock and graphic novelists Other essays assess the usefulness of theoretical approaches to Poe especially psychoanalytic ones and discuss the controversies concerning the literary merit of his work Together these essays bring to life the political philosophical and religious context in which Poe wrote A Literary History of England: The Restoration and eighteenth century (1660-1789) by G. Bond Albert Croll Baugh, 1967 **The Bookman Illustrated History of English Literature** Thomas Seccombe, Sir William Robertson Nicoll, 1906 **Francis Bacon and Scientific Poetry** Robert M. Schuler, 1992 **Russian Studies in Literature**, 2006 *Milton and the Tangles of Neaera's Hair* Stella Purce Revard, 1997 Revard traces the development of the 1645 Poems as a double book and investigates the debt of both English and Latin poetry to the neo Latin and vernacular traditions of the Continental Renaissance **Chaucer to Dryden** Thomas Seccombe, 1906 **Book Review Digest**, 1907 **Genre**, 1997 **W. B. Yeats** K. P. S. Jochum, 1990 This bibliography is the second revised edition of a book first published in 1978 under a somewhat different title Apart from correcting mistakes the second edition extends the coverage of material until 1986 and includes many items from 1987 and 1988 It also adds numerous items that should have been included in the first edition but had somehow escaped my notice
