## **Classical Music Without Fear:**

**Classical Music Without Fear** Marianne Williams Tobias, 2003 This book is written for the intelligent reader It is a guide to enjoying classical music not a textbook and is written in everyday language It offers some navigational aids to orient the reader within the music and includes a glossary of terms introd *Basic Music Reference* Alan Green, Michael J. Duffy, IV, 2012-11-01 *Basic Music Reference* is a quick start guide designed to introduce library employees to the basic tools and techniques involved in answering questions related to music As in every specialist subject area music has its own terminology but unlike most it also has a multitude of formats on paper and other materials as well as special notation and frequent use of foreign languages in titles and texts These features make it particularly difficult for library employees to answer users questions and thus a guide such as this one is essential Not all libraries with a music collection can afford to hire a music reference librarian Even libraries with such a specialist rely on support staff and student employees to answer questions when the music librarian is not available Whatever the scenario this volume will serve as a helpful training tool for library employees to learn about the basic music reference tools and to develop the techniques of greatest use when answering the most common types of music related questions **Papers and Proceedings of the Music Teachers' National**
