

A Parent Guide to the Accelerated Reader Program

What is the Accelerated Reader Program?

Accelerated Reader is a computer program that allows you to help monitor your child's reading progress. It is a self-paced program that allows your child to read at his or her own level.

1. Read the Book

After your child has selected the book, they should read independently at home and do a short quiz at school. This will help the teacher understand and assign the book.

2. Track the Progress

The program will track the books that your child reads, along with their quiz scores and test scores.

The information is then used by teachers to monitor children's progress and offer additional support if and when needed. The idea of the program is to help children to develop their reading skills at their own pace.

Concerns and Standings

What should I do if my child asks why books to get more points?

Reading books that are not within the reading level may seem appealing to your child as they will be able to read the books quickly and earn points.

The more books they read, the better they will get at it. Encourage your child to read at least 15 minutes each day. This will help them understand and enjoy the book.

Why reading is important?

Reading helps your child to learn and understand the world around them. It also helps them to develop their imagination and creativity.
