ARMSTRONG, 2021-04-28 The Royal Air Force had placed a great deal of faith in its force of bombers Bomber Command in the event of a future war The belief in the ability of formations of bombers flying in daylight and unescorted protecting themselves from enemy fighter attack informed early tactics but led to bloody losses Hampered by government restrictions on targets by late 1941 Bomber Command was in crisis As a result and coupled the growing dire war situation a new and forceful commander Sir Arthur Harris was appointed and new strategies allowed Bomber Command to broaden its attacks despite some opposition The result was the area bombing strategy which focussed attacks upon enemy held towns and cities This Main Offensive period lasted throughout 1943 1944 and saw both victories and defeats It was also the period that saw a limited number of precision attacks on Augsburg Peenemunde and most famously the Ruhr dams Bomber Command also aided in tactical and strategic support for the invasion of Europe and the subsequent fight to push inland New technological developments allowed Bomber Command to hit V Weapons sites and to focus more on precision bombing but Harris

remained determined to hit German towns and cities whenever possible while the Command's growing power allowed it to rain devastation upon its targets culminating at Dresden. Much has been written about Bomber Command but this book focusses largely on those who took part in the raids and on public attitudes towards the campaign in Britain. Using accounts from national and local archives, newspapers and existing historiography, the book seeks to shed light on untold stories from Bomber Command's war.

**No. 1 Group, Bomber Command, Royal Air Force Roll of Honour, 1939-1945** Great Britain. Royal Air Force. Bomber Command. Group, No. 1, 1950. [RAF Bomber Command at War, 1939-1945](#) Craig Armstrong, 2021-04-28. The Royal Air Force had placed a great deal of faith in its force of bombers Bomber Command in the event of a future war. The belief in the ability of formations of bombers flying in daylight and unescorted, protecting themselves from enemy fighter attack, informed early tactics but led to bloody losses. Hampered by government restrictions on targets by late 1941, Bomber Command was in crisis. As a result and coupled with the growing dire war situation, a new and forceful commander, Sir Arthur Harris, was appointed and new strategies allowed Bomber Command to broaden its attacks despite some opposition. The result was the area bombing strategy which focussed attacks upon enemy-held towns and cities. This Main Offensive period lasted throughout 1943-1944 and saw both victories and defeats. It was also the period that saw a limited number of precision attacks on Augsburg, Peenemünde and most famously the Ruhr dams. Bomber Command also aided in tactical and strategic support for the invasion of Europe and the subsequent fight to push inland. New technological developments allowed Bomber Command to hit V-Weapons sites and to focus more on precision bombing, but Harris remained determined to hit German towns and cities whenever possible while the Command's growing power allowed it to rain devastation upon its targets culminating at Dresden.

Much has been written about Bomber Command but this book focusses largely on those who took part in the raids and on public attitudes towards the campaign in Britain. Using accounts from national and local archives, newspapers and existing historiography, the book seeks to shed light on untold stories from Bomber Command's war.

**Strategic Air Offensive Against Germany 1939-1945** Charles Kingsley Webster, Noble Frankland, 2006. No aspect of the Second World War has become more controversial in recent years than Britain's Strategic Air Offensive against Germany. Argument has raged over both the morality of mass bombing of heavily populated cities over its effectiveness in seriously impairing Germany's war effort and over the horrendous casualty rates caused both to civilians on the ground and to the aircrew of RAF Bomber Command who lost some 52,000 men, a higher attrition rate than any other branch of the armed services. In assessing the campaign, the official British history of the offensive, of which this is the fourth and final volume, is indispensable. This book contains the background documents, some highly secret, on which the previous narratives of the campaign are based. There are chapters on radar, that war-winning British invention; on navigational aids on bombs and bombsights; and on post-war British and US surveys into the effectiveness of their devastating attacks. There are minutes, memoranda, operational orders and reports from the key figures involved in directing the air war: Sir Arthur Bomber

Harris himself Sir John Dill Sir Charles Portal and from the father of the RAF Lord Trenchard There are also important papers from the other side of the hill the Germans including police reports on the firestorm which swept away the port of Hamburg and personal reports from Armaments Minister Albert Speer to Hitler on the results of the RAF blitz on German oil and fuel production in June 1944 The book also contains fascinating facts and figures on losses to aircrew tonnage of bombs dropped the RAF's order of battle and estimates of damage done and civilian casualties Altogether this essential book gives the hard facts on which any conclusions about Britain's air offensive must ultimately be based
