The New York Times Essential Library: Classical Music Allan Kozinn, 2004-08-02 A dazzling appraisal of the definitive classical music performances available today. For classical music lovers, there is nothing more beguiling and exciting than the range of technique and emotion that can capture or transform the great works in the hands of a conductor and musicians. But with hundreds of recordings released every year, discovering the jewels is a challenge for newcomers as well as for connoisseurs. New York Times classical music critic Allan Kozinn offers the ultimate collector's guide, packed with a rich history of the composers and performers who stir our souls. From Bach's eloquent Goldberg Variations performed by master pianist Glenn Gould at the beginning and end of his career in startlingly different interpretations to a lyrical performance of Rimsky-Korsakov's Scheherazade conducted by Kiril Kondrashin shortly after his defection from the Soviet Union, Kozinn places each work in the greater context of musical development and stretches the listener's understanding of each pivotal composition. These original essays on the one hundred greatest recorded classical works provide both practical guidance for building a library and deep insight into the transcendent power of music itself.

30-second Classical Music Joanne Cormac, 2017 Do you know a capella from zarzuela or your major from your minor? Can you distinguish between a serenade and a symphony? If you only have 30 seconds, there is time using this book to understand the creative journey taken by classical music from the Middle Ages to the modern era. Our early ancestors understood pitch and rhythm, the basic tools that have been worked and ordered by composers and performers over the past 400 years into an extraordinary body of music written for soloists, chamber musicians, and entire orchestras. Today everyone has access to a prodigy of classical music which, far from being traditional or elitist, is alive and magical. From plainsong to programme music, appreciate the magnitude and majesty, the passion and the pathos of sounds that have the power to stir our emotions to great joy or infinite sadness. Here's music to your ears.
