Albert E. Richardson

Classical Architecture In Britain:

Classical Architecture in Britain Giles Worsley,1995 Giles Worsley notes that architectural styles do not always supersede one another but can co exist although one style may be dominant Focusing on the Palladian classical tradition introduced by Inigo Jones in the 1610s he shows that this tradition did not die out with Jones s death and revive only during the first half of the eighteenth century as is commonly assumed but remained viable until the end of the eighteenth century rivalling the baroque and rococo styles Worsley argues that neo classicism generally seen as a generic description of architecture in the late eighteenth century was actually prevalent in British architecture in varying degrees of strength as early as 1615 He examines the architecture of Scotland Ireland and North America in the seventeenth and eighteenth centuries and shows how styles were influenced by English Palladianism He also places Palladianism in a European context pointing out that it was not an isolated phenomenon but was an important feature of Italian French Dutch and German architecture during this time The book thus not only sheds fresh light on British architecture but also provides a new outlook on European and American architecture as a whole *The Architecture of Britain* Doreen Yarwood,1976 Articulating British Classicism Elizabeth McKellar,2017-07-05 Whereas the past decades have seen a profound reconsideration of eighteenth century visual culture the architecture of that century has undergone little evaluation Its study unlike that of the early modern period or the twentieth century has continued to use essentially the same methods and ideas over the last fifty years *Articulating British Classicism* reconsiders the traditional historiography of British eighteenth century architecture as it was shaped after World War II and brings together for the first time a variety of new perspectives on British classicism in the period Drawing on current thinking about the eighteenth century from a range of disciplines the book examines such topics as social and gender identities colonialization and commercialization notions of the rural urban and suburban as well as issues of theory and historiography Canonical constructions of Georgian architecture are explored including current evaluations of the continental intellectual background the relationship with mid seventeenth century Stuart court classicism and the development of the subject in the twentieth century *Monumental Classic Architecture in Great Britain and Ireland* Albert E. Richardson,2001-01-01 Detailed text and illustrations examine the buildings of the great neoclassical period 1730 1875 The roster of masterpieces pictured and described include The Customs House Dublin The Bank of England Liverpool Newgate Prison London The British Museum London The National Gallery Edinburgh The Fitzwilliam Museum Cambridge and many more 176 black and white illustrations **The Greek Revival** Joseph Mordaunt Crook,1968 *Victorian Architecture in Britain* ,1987 **The British Architect** ,1918 *A History of Renaissance Architecture in England, 1500-1800* Sir Reginald Theodore Blomfield,1897 *Monumental Classic Architecture in Great Britain and Ireland* Sir Albert Edward Richardson,1982-01 Shows British churches government offices university buildings museums and railroad stations built in the Palladian Greco Roman and Italian styles *Gothic Architecture in England and France* George Herbert
