On the Concept of Alien Zoltán Gyenge,2023 How do Game of Thrones and Hegel fit together My answer easily Now at a time of a great wave of immigration or migration emotions are running completely out of control At one end there is a thoughtless Willkommenskultur love the stranger at the other the wall defend yourself against the stranger To be fair neither side felt that their position needed any substantiation but rather beliefs and the sharp emotions even hatreds that sprouted from those beliefs were are pitted against each other It is difficult to argue against emotions Therefore this writing is in no way intended to take a position for or even against one or the other view idea ideology etc It merely draws attention One cannot speak of the notion of the foreign or the other without the same being the origin of any analysis It is quite interesting that almost nobody pays attention to this when really it would be enough to read a little Hegel For there is no same without other and vice versa Then comes the other which is not necessarily the same as the concept of other for the other is always the other but the other is not necessarily the other Lastly anyone who has read Game of Thrones will know that the radical concept of the alien follows the enemy And enemy is always alien but alien is not necessarily enemy Identical other alien and enemy This paper merely seeks to try to formulate some basic principles from an ideological historical point of view without claiming any exclusivity reserving the possibility and the right to be wrong For let us not think that the problem is as easy as Samwell thinks he watches wide eyed as the Other shrinks and melts into a puddle and finally there is nothing left of it but the dragonglass dagger surrounded by a smouldering wreath of steam Game of Thrones

Gender and Information Technology: Moving Beyond Access to Co-Creat Global Partnership Kirk, Mary,2008-09-30 This book explores the decline in female involvement in technology and other discrimination related to the industry Provided by publisher Redesigning Value

David Dunne,Chris Ferguson,Paolo Korre,2025-09-30 Businesses and designers both want to create value What could go wrong Time and again ambitious design projects within organizations fail to deliver the sort of impact designers believe is possible and managers say they want At the root of such failures are basic disconnects between how managers and designers view the world Managers often look to design to increase financial value while designers typically see their profession as creating value for users and society Countless opportunities to address pressing ethical social and environmental concerns

die in the gap between the two as managers and designers misconstrue each other's intent and misunderstand each other's needs How can both do better The answer lies in Redesigning Value Drawing from real world examples and insights from over one hundred designers design experts leaders of design labs and design skeptics at leading organizations including Google CNN Citi Bank Fidelity Insurance the Mayo Clinic and Shopify the book provides a road map from leaders who have been there and a practical manifesto to inspire the sort of action our world so sorely needs **"More and more plugged"**

Social Representations of the New Economy Alexandra Steinberg,2002-08-12 Inhaltsangabe Abstract This study set out to explore representations of the new economy amongst business professionals in Internet enabled business Going beyond the new economy hype the study was aimed at understanding the ways that business professionals make sense of the contemporary economy In doing so a social psychological perspective was taken allowing multiple realities to emerge Behavioural economists and economic psychologists conceptualisations of economic life are challenged They hinge on the presumption that individuals act independently from their social environment and deviate as cognitive misers from a single legitimate economic rationality By contrast this study drew on a social constructionist framework More specifically it employed social representations theory Moscovici 1961 76 Moscovici 1984 which rehabilitated common sense as a legitimate form of knowledge The theory of social representations as a theory of knowledge proved as a sensitive and more sophisticated tool to analyse contemporary economy in its manifestations in professionals common sense It is suggested to view the notion of common sense independently of role constellations Given this framework this study took a snapshot of the contemporary representational field of the new economy amongst business professionals Particularly the study was focused on exploring the taken for granted and beliefs underpinning discourses and symbols Data from semi structured interviews and an in depth analysis of Web sites highlighted new findings Business professionals have constructed symbolic meaning centring around the notion of interaction Economic and social beliefs were not separated Interaction is the new economy The new and seemingly unlimited digital connectivity was perceived as a challenge and triggered a symbolic creation of a new space the faceless space of interaction Meanings around the faceless space of interaction are constructed in strong contrast to physical proximity and shared experience in communities the face to face space From numerous interlocking discourses and images a core set of values emerged at the heart of the representational field deeply embedded in professionals common sense Representations of new technology of business professionals skills and roles in the new economy of space and time were informed by symbolic coping with the challenges posed by the faceless space This was evident in situative *Mac OS X Disaster Relief* Ted Landau,2003 Landau founder of the MacFixIt Web site has made a career of helping others keep their Macs running happily In *Mac OS X Disaster Relief* the author of the bestselling *Sad Macs Bombs and Other Disasters* trains his diagnostician's eye on Mac OS X with a brand new appendix devoted to Mac OS X 10.2 codename Jaguar The Athenaeum ,1886 **The International Library of Masterpieces Literature Art and Rare Manuscripts** Harry Thurston
