**How Do I Become an Author** Robert Flemingson, 2019-11-29

Blogging can look daunting and threatening. Fear not, it will be easy to start a blog even if you have no technical experience. One of the best career options is to learn how to build a blog. I'm not embarrassed that I made a lot of mistakes when I first learned how to create a blog. You will learn from more than a decade of experience so that when you make your own blog, you don't repeat the same mistakes. I developed this simple guide to make it easy and simple for anyone to know how to blog. And if at any point you get lost, send me a message and I'm going to do my best to rescue you. Creating a blog is by far one of the simplest and easiest ways to start your own business and earn revenue online from anywhere in the world. Best part: You don't have to be a qualified blogger to start a blog because people who read blogs want a blogger's more dramatic conversational tone. You do not require any qualifications, years of experience, or college degrees to start a blog and succeed. You can literally start a blog regardless of age, place, or level of experience. You should consider starting a blog if you have any of these ambitions for yourself:

1. Making money online. As we approach 2020, millions of people around the world are turning to making money from home rather than pursuing a traditional 9 to 5 job. Blogging can be one of the most profitable online businesses with very low costs if you do it the right way. And the best part is the handful of hours you put into writing a blog post today can make money for you long into the future. We're talking a lot more about how to blog and make money later on in this guide. You don't need to blog full-time either. Even part-time bloggers can earn well into the six figures from their blogs each year, as I've done for many years.
