## **Buddhism And Christianity In Dialogue:**

*Buddhist-Christian Dialogue as Theological Exchange* Ernest M. Valea, 2015-04-14 This book is intended to encourage the use of comparative theology in contemporary Buddhist Christian dialogue as a new approach that would truly respect each religious tradition's uniqueness and make dialogue beneficial for all participants interested in a real theological exchange. As a result of the impasse reached by the current theologies of religious exclusivism, inclusivism, and pluralism in formulating a constructive approach in dialogue, this volume assesses the thought of the founding fathers of an academic Buddhist Christian dialogue in search of clues that would encourage a comparativist approach. These founding fathers are considered to be three important representatives of the Kyoto School: Kitaro Nishida, Keiji Nishitani, and Masao Abe, and John Cobb, an American process theologian. The guiding line for assessing their views of dialogue is the concept of human perfection as it is expressed by the original traditions in Mahayana Buddhism and Orthodox Christianity. Following Abe's methodology in dialogue, an Orthodox contribution to comparative theology proposes a reciprocal enrichment of traditions not by syncretistic means but by providing a better understanding and even correction of one's own tradition when considering it in the light of the other while using internal resources for making the necessary corrections.

### **Buddhism and Christianity in Dialogue**

Perry Schmidt-Leukel, 2005 This book is written for a general as well as a more specialist readership. On the one hand it introduces basic topics of Buddhist Christian dialogue; on the other hand it opens up new ground, particularly insofar as the Buddhist and the Christian contributors all write comparatively.

### **Meaning, Consensus, and Dialogue in**

**Buddhist-Christian Communication** John D'Arcy May, 1984 There is no lack of phenomenological literature on both Buddhism and Christianity nor of theological literature on the dialogue between them. There is need, however, of a theory of communication between such communities of belief. Analyses of Buddhist and Christian canonical texts reveal the linguistic patterns underlying the construction of meaning in the earliest communities; a theory of consensus formation provides a broader framework for understanding the development and interaction of social meaning systems, and in this framework the problems posed by Buddhist-Christian communication are formulated and analysed.

### **Buddhist-Christian Dialogue** Paul O.

Ingram, Frederick J. Streng, 2007-04-01 The essays in this volume focus on philosophical, theological, and structural aspects of contemporary Buddhist-Christian dialogue in an effort to assess its potential as a source for the renewal and transformation of both traditions. Writing from differing assumptions, academic disciplines, and religious world views, the nine Christian and two Buddhist contributors are nevertheless agreed that interreligious dialogue can contribute meaningfully to our understanding of some of the profound issues arising out of modern self-consciousness. Believing that the human community and its survival are threatened everywhere by secularism, they seek to show that the dialogue between Buddhists and Christians can provide not only insights but a conceptual framework for authentic living in the present age of religious pluralism. Each writer shares the conclusion that Buddhist-Christian encounter is vitally important for a larger understanding

of contemporary issues of self identity evil communication and fulfillment

**Christianity and Buddhism** Whalen Lai, Michael von Brück, 2001 In *Christianity and Buddhism* Whalen Lai and Michael von Brück bring together for scholars students and interested lay observers the developments and understandings reached in Christian Buddhist dialogue in six key regions of the world After a two generations long exploration by scholars and devotees the authors judge it opportune to furnish a bird s eye view of the terrain that dialogue has covered Lai and von Brück explore questions such as what is meant by a theism and God talk in the two traditions asking whether the dialogue has revealed irreconcilable opposition or areas where each side can profit from insights from the other They acknowledge that similarities of language in the two traditions can mask differences in substance while differences in language can mask agreements in substance and it is not always clear which is the case While a first generation dialoguer Joseph Kitagawa once noted that mutual monologue was a better description of the Christian Buddhist project than dialogue Lai and von Brück point to areas of important dynamic understanding and clarification of where dialogue needs to go to address disagreements as well

**Buddhism and Interfaith Dialogue** Masao Abe, 1995-08-01 The first of a two part sequel to the award winning *Zen and Western Thought* this book attempts to clarify a Buddhist view of interfaith dialogue from various points of view The writings in this volume are divided into three parts Part One focuses on how Buddhism approaches and contributes to interfaith dialogue that is how Buddhism represents a methodological model that serves as a basis for the possibility of dialogical exchange Part Two contains four essays on the relationship between Buddhism and Paul Tillich the leading modern systematic theologian who drew on mystical sources and was also receptive to Eastern thought in developing his understanding of non being or negation Part Three continues a discussion of earlier themes and opens up several new issues particularly those involving the role of meditation in the East and West and the ethical implications of the Buddhist doctrine of karma in comparison with Christian moral activity Topics explored include the Buddhist notion of emptiness liberation justice faith and ethics

Beyond Dialogue John B. Cobb Jr., 1998-07-30 Christian Reflection about other religions has often misinterpreted the truth of the other Ways The Roman Catholic Church and the World Council of churches stress that Christians can gain an appreciative understanding of other traditions only through meaningful dialogue with believers of other faiths This book however emphasizes the need for Christians to go beyond dialogue to reach for a mutual transformation of Christianity and other religions By way of example the author explores with originality the Christian encounter with Mahayana Buddhism He offer an original view of how Christianity and Buddhism can appropriately transform one another when both partners are truly respected as equal Both contributing both benefiting John Cobb boldly challenges us to hear in an authentic way the truth which the other has to teach us and to be transformed by that truth

*The Process of Buddhist-Christian Dialogue* Paul O Ingram, 2011-09-29 While process philosophers and theologians have written numerous essays on Buddhist Christian dialogue few have sought to expand the current Buddhist Christian dialogue into a trilogy by bringing the natural sciences

into the discussion as a third partner This was the topic of Paul O Ingram s previous book *Buddhist Christian Dialogue in an Age of Science* The thesis of the present work is that Buddhist Christian dialogue in all three of its forms conceptual social engagement and interior are interdependent processes of creative transformation Ingram appropriates the categories of Whitehead s process metaphysics as a means of clarifying how dialogue is now mutually and creatively transforming both Buddhism and Christianity Drawing also on the work of theologian John Hicks and philosopher of science Imre Lakatos Ingram develops an understanding of Buddhist Christian dialogue in the context of a religious pluralism that is both open and dynamic and methodologically rigorous Wide ranging and full of insight *The Process of Buddhist Christian Dialogue* will be invaluable to scholars and students of comparative religion *The Cross and the Lotus* Gary Wayne Houston,1985

**Buddhist-Christian Dialogue in an Age of Science** Paul O. Ingram,2008 Buddhist Christian dialogue has rarely touched on its interaction with science yet its importance has immense implications *Buddhist Christian Dialogue in an Age of Science* offers a fresh and exciting view on the ideas themes and people engaged in the three way dialogue between Christianity Buddhism and the natural sciences Ingram s comprehensive yet accessible scholarship is uniquely solid in both religion and science and has the gift of making complex theories understandable Providing these three different perspectives will be useful for anyone interested in the relationship between religion and science *Buddhism and Christianity in Japan* Notto R. Thelle,2021-05-25 The modern dialogue between Buddhism and Christianity in Japan is reaching new depths and insights and is being recognized today as a challenging and promising point of contact between two cultures This volume is based on the premise that an understanding of the past is important for meaningful interaction in the present By placing the Buddhist Christian dialogue in historical perspective the author provides an essential element for critical and creative reflection on today s dialogue Thelle s historical examination begins with the arrival of Francis Xavier in 1549 which initiated the Christian century However his main emphasis is on the nineteenth century when relations between the two religions moved from confrontation to conciliation The opening of Japan in 1854 initiated a confrontation that was more than a religious conflict the meeting of the two faiths was part of an all inclusive cultural clash The confrontation of Buddhism and Christianity is interpreted in a broad cultural and sociopolitical context and reveals how strongly both religions were influenced by the social and ideological upheavals in nineteenth century Japan The vital issue was which religion would become the spiritual basis for the new Japan Christianity introduced as the spiritual backbone of Western power was associated with ideas of modernization and democracy Buddhism regarded as part of the old culture was in serious crisis But the conflict was not resolved in victory and defeat Radical changes took place within the two religions and by the turn of the century confrontation had moved toward conciliation The author examines the origins of emerging peaceful dialogue and uncovers the complex process by which it grew out of an atmosphere of animosity and distrust Thelle s central themes are the connection between Christian expansion and Buddhist anti Christian campaigns religion and nationalism Christian

impact on Buddhist reform movements attempts at unifying the two faiths into a new religiosity and the development of an indigenous Japanese theology He throws light on cross cultural interactions far beyond the specialized area of religion and theology With its broad cultural and sociopolitical scope this book will interest all students of Japanese history and culture
