## **Building A Biblical Faith:**

Building Belief Chad V. Meister, 2009-06-01 It can be hard to share faith with others especially when people can't agree on whether there is even any actual truth. With that in mind, Chad Meister has developed a simple logical way for you to help others move past relativism to a place where Christian belief makes sense: the Apologetics Pyramid. In *Building Belief*, Meister leads you up each step of the pyramid, beginning where many find themselves today: doubting if anything is really true. From there, he powerfully builds a case for absolute truth, the existence of God, universal morals and values, the reliability and divine inspiration of the Bible, the resurrection of Christ, and ultimately the good news that Jesus is the Son of God who offers salvation to the world.

*Confident Faith* Mark Mittelberg, 2013 In *Confident Faith*, Mark Mittelberg assures Christians that we can be confident in our beliefs. There's no reason to be timid about what we believe because our beliefs can stand up to the test. Truth isn't dependent on how a person feels or one's own point of view, as so many assert. On the contrary, we can determine truth through our five senses, and that truth reliably points to a deeper and unseen reality. Mark walks readers through twenty arrows that point towards Christian beliefs, from the intricate design of the universe to archaeological proofs, from the consistent testimony of changed lives to the reliability of the ancient documents of the Bible. After studying these arrows, you'll put this book down with a renewed confidence in what you believe and why it matters for eternity.

**Building Blocks in Earth Science** Dr. Gary Parker, 2015-01-29 Develop critical thinking skills as you explore what to believe and why you believe it. To understand earth science, it requires teamwork, combining the methods and evidences of both science and history. And if you also use the history book of the world, the Bible, you can make sense of the Earth's surface, altered, formed, and weathered over time: the landscapes and vistas we enjoy today. Learn about the Structure of the Earth and its atmosphere, Types of minerals and rocks, the water table, and types of volcanoes, Earth's tornadoes, faults, polarity, magnetism, reefs, folding, hypercanes, deltas, and much more. When you understand the difference in history and science in questions related to our planet, you can more effectively discern the evidences seen in the world around you. Science is an awesome tool for understanding the workings of our world and for applying such knowledge to benefit mankind. Scientific truth, however, is not determined by consensus, compromise, majority vote, popularity, celebrity endorsement, money, media endorsement, or best-selling books, and it is at its best when it is rooted in a worldview that begins with the Bible.

Building Christian Families Mitch Finley, Kathy Finley, 2000-10 Building Biblical Values Harold J. Westing, Penelope L. Thome, Penny Thome, Westing and Thome provide a variety of group activities written to help readers become intentional about their spiritual values.

**Christian Faith and Life**, 1929 **Faith's Defenders** Dr. Octavian Caius Obeada, 2024-07-28 *Faith's Defenders* The Christian Apologetic Mission offers a comprehensive exploration of the crucial role of apologetics in the Christian Church.
