Building The Suez Canal:

Building the Suez Canal S. C. Burchell,1966 Discusses the Suez Canal from its conception to its final realization emphasizing the participation of Ferdinand de Lesseps **Building the Suez Canal** Samuel C. Burchell,1966 Parting the Desert Zachary Karabell,2004-05-11 Award winning historian Zachary Karabell tells the epic story of the greatest engineering feat of the nineteenth century the building of the Suez Canal and shows how it changed the world The dream was a waterway that would unite the East and the West and the ambitious energetic French diplomat and entrepreneur Ferdinand de Lesseps was the mastermind behind the project Lesseps saw the project through fifteen years of financial challenges technical obstacles and political intrigues He convinced ordinary French citizens to invest their money and he won the backing of Napoleon III and of Egypt s prince Muhammad Said But the triumph was far from perfect the construction relied heavily on forced labor and technical and diplomatic obstacles constantly threatened completion The inauguration in 1869 captured the imagination of the world The Suez Canal was heralded as a symbol of progress that would unite nations but its legacy is mixed Parting the Desert is both a transporting narrative and a meditation on the origins of the modern Middle East **Building the Suez Canal** Sam Bate,W. H. Sandford,National League of Cities,1966 **Suez Canal** Valerie Bodden,2006-07 Explores the history and construction of the Suez Canal and describes its important role in world trade and the revitalization of the area **Building the Suez Canal** Horizon Magazine,1967 **Suez Canal** Joy Gregory,2019-08-01 The Suez Canal was created to improve international trade Approximately 18 000 ships pass through the canal every year Find out more in Suez Canal a title in the Structural Wonders of the World series *Building the World* Frank P. illustrates how the decision to create such a structure came to be demonstrating the importance of individuals in imagining planning and building some of the most famous engineering landmarks in the world **Modern Architecture and Design** Bill Risebero,1983 British architect and planner Bill Risebero recreates 200 years of modern architecture and design against a backdrop of class dominance over rising industrialism The lively and opinionated text and more than 1 000 captioned drawings by the author provide a refreshing reinterpretation of architectural developments in the modern period
