## Building 6 Party Capacity For A Wmd Free:

**Modernizing the North Korean System** Charles Wolf (Jr.), Norman D. Levin, 2008 Six institutions in five countries that have key interests in North Korea's future undertook a collaborative effort to determine ways in which the North Korean system could move toward modernization. The effort produced illustrative plans, a consensus plan, and a tool kit for constructing alternative plans for stimulating the modernization of the North Korean system.

**North Korea Policy** Linus Hagström, Marie Söderberg, 2007-01-24 North Korea features highly on the agenda of the main actors in East Asia and around the globe, and many large foreign policy initiatives have been undertaken since the structural constraints of the Cold War started to loosen in the early 1990s. The centrality of North Korea has been particularly emphasized by the country's suspected development of nuclear weapons, which is regarded as one of the largest destabilizing factors in the Asia Pacific region. This comprehensive book analyzes the formation of the North Korea policy in the context of great power relations in East Asia, specifically focusing on Japan's policy formation and the Japan factor in the North Korea policies of other concerned great powers, namely the US, China, Russia, South Korea, and the EU. By adopting an empirical focus on the international interaction over North Korea, this book brings together issues that are highly relevant to contemporary Japanese foreign policy, clarifies what is happening in the region right now, and plots what policy options are available for the future. Policy oriented and based on careful empirical analysis, *North Korea Policy* will appeal to both policy makers and scholars of Asian foreign policy.

**The Last Days of Kim Jong-il** Bruce E. Bechtol, 2013 North Korea has remained a thorn in the side of the United States ever since its creation in the aftermath of the Korean conflict of 1950-1953. Crafting a foreign policy that effectively deals with North Korea while still ensuring stability and security on the Korean Peninsula and in Northeast Asia as a whole has proved very challenging for successive American administrations. In the wake of ruler Kim Jong-il's death in December 2011, analysts and policymakers continue to speculate about the effect his last years as leader will have on the future of North Korea. Bruce Bechtol Jr. contends that *The US Versus the North Korean Nuclear Threat* Er-Win Tan, 2013-11-26 Although the current world order is still dominated by the US, there is increasing international concern over the possibility of regional security dilemmas arising from smaller powers' attempts to develop Weapons of Mass Destruction. A study of US-North Korean interaction using the security dilemma as a conceptual frame of analysis is thus not only hugely topical but also particularly relevant for the 21st century, on theoretical as well as empirical grounds. Is there the prospect of a security dilemma contagion if North Korea acquires nuclear weapons capability, leading to an Asia-Pacific wide nuclear arms race? This book examines this contentious issue in depth and explores the difficult choices policymakers face as a result of the uncertainty in international politics.

**Strategic Digest**, 2005 **Iraq Revisited** Ryan J. Doppler, 2003 In March 2003 the United States launched pre-emptive strikes against Iraq after President Bush's ultimatum to Saddam Hussein expired. What were the reasons that pushed America to ignore UN Security Council votes and to attack Iraq regardless of world opinion? This important book examines the paths that were taken by America that preceded the invasion. Iraq has lived under stringent sanctions and has been bombed by the US almost daily since President Bush attacked in 1991. What motives were really behind the timing and seemingly unprovoked ferocity of this attack? We probably will never know. This book examines the recent history between the biggest oil-consuming country in the world and the second largest oil reserve country. Was oil the trigger or a belated and indirect September 11th payback? Was it a deal with Israel or a Bush election warm-up?
