book brings together disparate skeins of the past including little known oral histories native texts ethnohistory and archaeological excavations to present a vivid new view of how native cultures fared under these two colonial systems Kent Lightfoot's innovative work which incorporates the holistic methods of historical anthropology explores the surprising ramifications of these long ago encounters for the present day political status of native people in California Lightfoot weaves the results of his own significant archaeological research at Fort Ross a major Russian mercantile colony into a cross cultural comparison showing how these two colonial ventures one primarily mercantile and one primarily religious contributed to the development of new kinds of native identities social forms and tribal relationships His lively account includes personal anecdotes from the field and a provocative discussion of the role played by early ethnographers such as Alfred Kroeber in influencing which tribes would eventually receive federal recognition *Indians Missionaries and Merchants* takes a fascinating yet troubling look at California's past and its role in shaping the state today **We Are Not Animals** Martin

Jesuit Franciscan and Dominican missionaries built a network of churches throughout the new world of New Spain Since the early twentieth century scholars have studied the colonial architecture of southern New Spain but they have largely ignored the architecture of the north However as this book clearly demonstrates the colonial architecture of Northern New Spain an area that encompasses most of the southwestern United States and much of northern Mexico is strikingly beautiful and rich with meaning After more than two decades of research both in the field and in archives around the world Gloria Fraser Giffords has authored the definitive book on this architecture Giffords has a remarkable eye for detail and for images both grand and diminutive Because so many of the buildings she examines have been destroyed she sleuthed through historical records in several countries and she discovered that the architecture and material culture of northern New Spain reveal the influences of five continents As she examines objects as large as churches or as small as ornamental ceramic tile she

illuminates the sometimes subtle sometimes striking influences of the religious social and artistic traditions of Europe from the beginning of the Christian era through the nineteenth century of the Muslim countries ringing the Mediterranean from the seventh through the fifteenth centuries and of Northern New Spain's indigenous peoples whose art influenced the designs of occupying Europeans Sanctuaries of Earth Stone and Light is a pathbreaking book featuring 200 stunning photographs and over 300 illustrations ranging from ceremonial garments to detailed floor plans of the churches

Architecture and Its Sculpture in Viceregal Mexico Robert J. Mullen, 1997 From monumental cathedrals to simple parish churches perhaps as many as 100 000 churches and civic buildings were constructed in Mexico during the viceregal or colonial period 1535 1821 Many of these structures remain today as witnesses to the fruitful blending of Old and New World forms and styles that created an architecture of enduring vitality In this profusely illustrated book Robert J Mullen provides a much needed overview of Mexican colonial architecture and its attendant sculpture Writing with just the right level of detail for students and general readers he places the architecture in its social and economic context He shows how buildings in the

larger cities remained closer to European designs while buildings in the pueblos often included prehispanic indigenous elements This book grew out of the author s twenty five year exploration of Mexico s architectural and sculptural heritage Combining an enthusiast s love for the subject with a scholar s care for accuracy it is the perfect introduction to the full range of Mexico s colonial architecture [A Historical Context and Archaeological Research Design for Townsite Properties in California](#) ,2010 **Out of the Apocalypse to Alta California** Carlos Leon Mujal,2002 *Somos Primos* ,1996 **The Hispanic American Historical Review** James Alexander Robertson,1996 Includes Bibliographical section **Native Americans at Mission Santa Cruz, 1791-1834** Rebecca Allen,1998 Recent historical archaeological works have concentrated on the economies of the Alta California mission system within the larger world system The Santa Cruz Mission Adobe is one of the few standing neophyte residences left from the Mission period in California As such it offers a unique framework for studying the dynamic social and economic interrelationships between the native and Hispanic people at a particular mission It also presents an opportunity to focus on neophyte economic activities *Lime Kiln Legacies* Frank A.
