Building Community Keeping The Faith:

Building Community, Keeping the Faith Fred W. Peterson, 1998 The German Catholic immigrants who founded St John the Baptist parish on the central Minnesota prairie effected a remarkable transfer of tradition to their new environment In this study Fred W Peterson documents analyzes and interprets the community these settlers built between 1858 and 1915 He reveals how their folk culture aesthetic values and religious beliefs were directly embodied in the houses dairy farms and churches they planned and constructed Peterson s main focus is on some 30 distinctive farmhouses built with locally produced brick in and around Meire Grove the village at the center of the parish Employing historical and contemporary photographs and his own precise architectural renderings he shows how settlers modeled the layouts of their new homes after ones they had known in Germany and adapted them to the demands of prairie life Equally important Peterson explores how the secular and the sacred were intertwined in St John the Baptist parish how piety not only suffused parishioners lives but also affected every aspect of their built environment Through its treatment of a single agricultural community the book offers a perspective on similar ethnic enclaves in Minnesota and the Upper Midwest Building Community Keeping the Faith is vital reading for students of architecture religion immigration and ethnicity indeed for anyone interested in the complex influence European culture exerted on the development of America

Society for German-American Studies Newsletter, 1998 International Development and Local Faith Actors Kathryn Kraft, Olivia J. Wilkinson, 2020-03-17 This book explores the interplay and dialogue between faith communities and the humanitarian development community. Faith and religion are key influencers of thought and practice in many communities around the world, and development practitioners would not be able to change behaviours for improved health and social relations without the understanding and influence of those with authority in communities such as religious leaders. Equally, religious leaders feel responsibilities to their communities but do not necessarily have the technical knowledge and resources at hand to provide the information or services needed to promote the well-being of all in their scope of influence. The book demonstrates that partnerships between humanitarian development practitioners and religious communities can be mutually beneficial, but that there are also frequently pitfalls along the way and opportunities for lessons to be learned by each party. Delving into how humanitarians and faith communities engage with one another, the book focuses on building knowledge about how they interact as peers with different yet complementary roles in community development. The authors draw on the Channels of Hope methodology, a tool which seeks to engage faith leaders in addressing social norms and enact social change, as well as other related research in the sector to demonstrate the many ways in which humanitarian and development policy makers and practitioners could achieve more systematic engagement with faith groups. This book is an important contribution to the growing body of literature on faith and development and will be useful both to researchers and to practitioners working with faith communities. **Keeping Faith with the Future**, 1953 **Sacred Landscape**

Catherine Cresswell, 1999 **Faith, Family, and Filipino American Community Life** Stephen M. Cherry, 2014-01-03 Stephen M. Cherry draws upon a rich set of ethnographic and survey data collected over a six-year period to explore the roles that Catholicism and family play in shaping Filipino American community life. From the planning and construction of community centers to volunteering at health fairs or protesting against abortion, this book illustrates the powerful ways these forces structure and animate not only how first-generation Filipino Americans think and feel about their community but how they are compelled to engage it over issues deemed important to the sanctity of the family. Revealing more than intimate accounts of Filipino American lives, Cherry offers a glimpse of the often-hidden but vital relationship between religion and community in the lives of new immigrants and allows speculation on the broader impact of Filipino immigration on the nation. The Filipino American community is the second largest immigrant community in the United States, and the Philippines is the second largest source of Catholic immigration to this country. This ground-breaking study outlines how first-generation Filipino Americans have the potential to reshape American Catholicism and are already having an impact on American civic life through the engagement of their faith. **Religious Education in the African American Tradition** Kenneth H.

Hill, 2012-11 Schweitzer's goal in this book is to explore what postmodernity actually means for theology and how theology and the church may respond to its challenges. He focuses on the life cycle as it is changing with the advent of postmodernity, looking sequentially at segments of the life cycle using different lenses: modernity, postmodernity, and responses from church and theology. Schweitzer concludes with a theology of the life cycle.
