Building Community Resilience to Disasters Anita Chandra, 2011 Community resilience or the sustained ability of a community to withstand and recover from adversity has become a key policy issue at federal state and local levels including in the National Health Security Strategy Because resources are limited in the wake of an emergency it is

increasingly recognized that resilience is critical to a community's ability to reduce long recovery periods after an emergency. This report provides a roadmap for federal, state, and local leaders who are developing plans to enhance community resilience for health security threats and describes options for building community resilience in key areas. Based on findings from a literature review and a series of community and regional focus groups, the authors provide a definition of community resilience in the context of national health security and a set of eight levers and five core components for building resilience. They then describe suggested activities that communities are pursuing and may want to strengthen for community resilience and they identify challenges to implementation.

**Building a Community** Samuel Zane Batten, 1922

**Creating Community** Andy Stanley, Bill Willits, 2004-12-31

Five keys to building a small group culture that fosters meaningful, lasting connections within your church community. Small groups are the key to impacting lives in your church. But a healthy small group environment doesn't just happen. So pull up a chair. Let's talk about how to make it happen. Bill Willits and bestselling author Andy Stanley share their successful approach, which has resulted in nearly eight thousand adults becoming involved in small groups at North Point Community Church in Atlanta. Simply put, the five principles have passed the test. This is not just another book about community; this is a book about strategy—strategy that builds a small group culture. *Creating Community* shares clear and simple principles to help people connect into meaningful relationships—the kind that God desires for each of us and that He uses to change our lives. Put this proven method to work in your ministry and enjoy the tangible results: God's people doing life TOGETHER. The small group program at North Point Community Church is not an appendage; it is not a program we tacked on to an existing structure. It is part of our lifestyle. We think groups. We organize groups. We are driven by groups. *Creating Community* contains our blueprint for success. And I believe it has the potential power to revolutionize your own small group ministry. Andy Stanley
