*Transfigurations of the European Identity* Zsolt Almási, Mike Pincombe, 2014-03-17 European identity is as much a problem as an opportunity Although it is impossible to provide an all encompassing definition of what it means to be European historicising and contextualising this problem may well lead to the clarification and even creation of a European identity This is the contention of this volume which approaches this complex notion from an inter and transdisciplinary perspective examining facets ranging from the citizen to cultural politics from literature to traditional and digital media from the US to China As complex as this idea is this volume will extend the reader s understanding of the timely and promising problematisation of what may be termed European identity **Mapping Agency** Ulrike Lorenz-Carl, Martin Rempe, 2016-05-13 Despite regionalism having developed into a global phenomenon the European Union EU is still more often than not presented as the role model of regionalism whose institutional designs and norms are adopted by other regional actors and organizations as part of a rather passive downloading process Reaching beyond such a Eurocentric perception Mapping Agency provides an empirically rich African perspective on regionalisms in Sub Saharan Africa It adopts an actor centred approach but departs from a rather simplified understanding of agency as exerting power and instead scrutinizes to what extent actors actually participate in or are excluded from processes of regionalism The value of this volume derives from the inclusion of historical dimensions its open multi actor approach to both formal and informal processes and its comparative perspective within but also beyond Sub Saharan Africa The chapters offer a multifaceted

picture of agency beyond disciplinary divides where the EU is one actor amongst many and where local national regional and global state and non state actors shape and sometimes break processes of regionalisms in Sub Saharan Africa **Margins** Jeff Canfield,2023-02-02 **Margins** A Study of Theological and Natural Boundaries examines the boundaries of biblical exegesis creation time and space sin eschatology the sovereignty of God and much more We discover that everything God has created for mankind exists within certain boundaries most importantly how we interpret his word *Seasonal Unemployment in the Building Industry in Certain European Countries* Liebmann Hersch,1929 **European Condominium Law** Cornelius Van Der Merwe,2015-02-26 The first comprehensive comparative treatment in English of condominium apartment ownership commonhold law in the 21 most important European jurisdictions **The Economist** ,1920 **Dover-Ostend European Guide** ,1906 Official Report ...
