Building Policy Coherence Tools And Tensions:

Building Policy Coherence Organisation for Economic Co-operation and Development,1996 On cover PUMA **Building Policy Coherence** ,1996 Strategic Decisionmaking in Cabinet Government ,1999-01-01 Collective cabinet decisionmaking provides the institutional mechanism by which many governments prioritize their policies and guard against unpredictable policy reversals Mansood Ahmed Vice President Poverty Reduction and Economic Management Network The World Bank The style and membership of cabinets vary in every country The heads of democratic governments form a cabinet for three principal reasons 1 The threat that the legislature will significantly amend the government s program as expressed in the budget proposals made by the executive 2 The threat of dismissal between elections 3 The risk that the executive will be seen by the public as having departed from a previous tradition of cabinet government and judged poorly as a result Strategic Decisionmaking in Cabinet Government shows that cabinet government is a rational response to these risks and sets out the institutional arrangements that make the cabinet a binding device This report recognizes the significance of the budget process for collective decisionmaking but moves beyond the simplistic assumption that tradeoffs in cabinet government can only be made by reallocating the budget It supports practical approaches for assessing the strength of cabinet decisionmaking arrangements and for identifying practical steps to improve the prospect that decisions will be collectively binding *The Potentials and Pitfalls from National Blue Economy Plans Towards Sustainable Development* Gerald Gurinder Singh,Michelle Voyer ,Andrés M. Cisneros-Montemayor,2026-03-25 Many nations around the world have established or are in the process of developing Blue Economy strategies so that marine management and economies can help achieve the UN Sustainable Development Goals Interest in a Blue Economy has also been heightened through a strategic lens of post COVID 19 economic recovery The promise of a Blue Economy includes interests in delivering large scale environmental protection alongside economic growth revitalizing coastal communities and development planning with coastal communities Any national Blue Economy plan will need to occur alongside other national priorities and through national institutions and capacities Learning from national cases can help inform the development of Blue Economy strategies and ocean related sustainable development policies around the world Marine sustainable development is a topic that has gained much attention given the multiple competing uses in marine spaces and transboundary issues of marine use in addition to the emergence of new industries While rich literature is being developed to help scope the Blue Economy broadly there is a relative paucity of literature from the existing and emerging Blue Economy plans around the world That is there is much to learn from the early planning and implementation of Blue Economy strategies from specific countries and regions where broad theories and frameworks are tested and adapted This Research Topic will catalyse greater attention to studying Blue Economy through the lens of national contexts This Research Topic seeks input from Original Research Methods Policy and Practice Reviews Perspectives Community Case Studies Policy Briefs and Brief Research Reports
