Survey and Repair of Traditional Buildings Richard Oxley, 2015-11-17 Understanding the unique

requirements of traditional buildings is crucial to providing appropriate guidance on their care and repair. This book will help practitioners identify the particular issues relating to older buildings and the problems they may encounter when surveying and repairing them. With the use of examples the author provides invaluable information on how traditional buildings perform, emphasizing the need for a sensitive and sustainable approach which also takes account of the specific needs of the building. The book examines all aspects to be included in any assessment for survey and repair and points out in detail the potential pitfalls. It also explores the controversial issues surrounding the treatment of damp and timber decay, advocating solutions that are appropriate to older buildings rather than using standard, often damaging methods of treatment. The extensive case studies not only illustrate good conservation in practice but also how projects can go badly wrong and how mistakes could have been avoided. This title explores the causes of movement and the actions required. It advises on alternatives to chemical treatment for damp and timber decay. It provides fully illustrated case studies with numerous photographs. It emphasizes a sustainable approach to conservation. It outlines the key legislation issues. It includes the Historic Buildings Prosecution Fines Database and other useful appendices.

Architect's Legal Pocket Book Matthew Cousins, 2011-05-23. A little book that is big on information. The Architect's Legal Pocket Book is the definitive pocket reference guide on legal issues for architects and architectural students. This handy pocket book provides key legal principles and the latest legal developments that will help you quickly understand the law and where to go for further information. This book covers a wide range of subjects focused on the UK including building legislation and the Localism Bill, negligence, liability, planning, policy and development, listed buildings, party wall legislation and rights of light. Illustrated with clear diagrams and featuring key cases, this pocket book is an invaluable source of practical information and a comprehensive guide of the current law for architects. The Architect's Legal Pocket Book is written in a format that has already proved hugely popular throughout the construction industry and is a book no architect should be without. Matthew Cousins is a practicing architect and member of the Royal Institute of British Architects. He is an established author with a Diploma in Law from City University.

Improving Energy Efficiency in Commercial Buildings and Smart Communities Paolo Bertoldi, 2020-01-14. These proceedings present fourteen peer-reviewed papers from the 10th International Conference on Improving Energy Efficiency in Commercial Buildings and Smart Communities which was held March 21-22, 2018 in Frankfurt, Germany. This biannual conference aims to promote and diffuse the concept of energy efficiency in new and existing commercial buildings and to enlarge the market for low consumption and sustainable non-residential buildings. It also covers smart and sustainable districts, communities and cities since energy systems, efficiency and renewable energies are often optimized at the district or municipal level. The 2018 conference focused on advanced and innovative technologies to improve the energy efficiency of commercial buildings, communities and cities, as well as the policies and measures by governments at various levels to improve energy efficiency. A particular focus was on Energy Service Companies (ESCOs). The conference addresses energy policy makers at international
