Goodman, 2011-03-16 A sharp and lively text that covers issues in depth but not to the point that they become inaccessible to beginning students An Introduction to Architectural Theory is the first narrative history of this period charting the veritable revolution in architectural thinking that has taken place as well as the implications of this intellectual upheaval The first comprehensive and critical history of architectural theory over the last fifty years surveys the intellectual history of architecture since 1968 including criticisms of high modernism the rise of postmodern and poststructural theory critical regionalism and tectonics Offers a comprehensive overview of the significant changes that architectural thinking has undergone in the past fifteen years Includes an analysis of where architecture stands and where it will likely move in the coming years **Architects Today** Kester Rattenbury, Robert Bevan, Kieran Long, 2006-08-10 This volume offers both an introduction to and an insight into key contemporary architects as well as giving a snapshot of the varied nature of architecture today For each architect there are details of their life and work and illustrations of their most representative and iconic buildings **Akushisu**, 2006 **Contemporary Japanese Architecture** James Steele, 2017-03-16 Contemporary

Japanese Architecture presents a clear and comprehensive overview of the historical and cultural framework that informs the work of all Japanese architects as an introduction to an in depth investigation of the challenges now occupying the contemporary designers who will be the leaders of the next generation It separates out the young generation of Japanese architects from the crowded distinguished multi generational field they seek to join and investigates the topics that absorb them and the critical issues they face within the new economic reality of Japan and a shifting global order Salient points in the text are illustrated by beautiful descriptive images provided by the architects and from the extensive collection of the author By combining illustrations with timelines and graphics to explain complex ideas the book is accessible to any student seeking to understand contemporary Japanese architecture

Transitional Space as Engawa Yumi Okumiya, 2001 □□□□□, 2010 Architecture, 2002 *New Directions in Contemporary Architecture* Luigi Prestinenza Puglisi, 2008-05-05 Rem Koolhaas has defined architecture as a chaotic adventure Nothing could be more true than that of the last two decades Never has architecture been so unbridled and so extraordinary the architectural cast has never been so wide and their works so diverse What though if you are new to the subject How is it possible to make sense of this seemingly unruly architectural landscape There are so many different types of architecture so many designers with such varying and even contradictory approaches This book is a much needed navigation guide for anyone interested in modern architecture Organised chronologically it enables you to find your way through one of the most prolific periods of building design It looks at buildings in often contrasting styles that have been built almost simultaneously across the world with their roots in very different tendencies and schools of thought A loose but effective framework is provided which pulls all these multiple threads together while key buildings are described individually with a unique clarity and precision Aaron Betsky Director of Cincinnati Art Museum Comprehensive coherent and cogent Puglisi's book sorts out the messy history of the last quarter century of the world's best architecture Professor Iain Borden Head Bartlett School of Architecture UCL Illuminating and insightful a must have read for students Hans Ibelings Editor of A10 new European architecture Lucid and concise Charles Jencks Architecture Critic and Author A compelling comprehensive overview of the avant garde since 1988 as it oscillates in and out of the global star system Bill Menking Editor of The Architect's Newspaper This is the first clear and systematic study of the culture of architecture from the reds of deconstruction to the sustainable greens
