BMW, 1984 *BMW, Bavaria's Driving Machines* Jan P. Norbye, 1984 Traces the history of this German automobile manufacturer and offers specifications and descriptions of its most important stock and racing models *BMW* Jan P. Norbye, 1986 **The BMW Century** Tony Lewin, 2016-11 The BMW Century profiles one hundred years of BMW car and motorcycle manufacturing a decade at a time with gorgeous photos and detailed text **The BMW Century, 2nd Edition** Tony Lewin, 2022-07-19 The BMW Century details more than one hundred years of BMW from its historic aviation roots to today's trend setting cars and motorcycles The Driving Machine Witold Rybczynski, 2024-10-08 A compact epic Brisk lucid and enjoyable Richard Snow Wall Street Journal The renowned design writer on the extraordinary history of car design In this lively and entertaining work Witold Rybczynski hailed as one of the best writers on design working today by Publishers Weekly tells the story of the most distinctive cars in history and the artists engineers dreamers and gearheads who created them Delving into more than 170 years of ingenuity in design technology and engineering he takes us from Carl Benz's three wheel motorcar in 1855 to the present day shift to electric cars Along the way he looks at the emergence of mass production with Henry Ford's Model T the Golden Age of American car design and the rise of car culture postwar European subcompacts typified by the Mini Cooper and the long tradition of the streamlined and elegant sports car Rybczynski explores how cars have been reflections of national character the charming Italian Fiat Cinquecento icons of a subculture the VW bus for American hippies and even emblems of an era the practical Chrysler minivan He explains key developments in automotive technology including the electric starter rack and pinion steering and disc brakes bringing to light how the modern automobile is the result of more than a century of trial and error And he weaves in charming accounts of the many cars he's owned and driven starting with his first the iconic Volkswagen Beetle The Driving Machine is a breezy and fascinating history of design illustrated with the author's delightful drawings **The New Domestic Automakers in the United States and Canada** A.J. Jacobs, 2015-12-16 Over the past forty years state provincial and local governments in the United States and Canada have provided foreign automakers with approximately 4.80 billion in incentives in order to lure light vehicles assembly plants to their areas This has included tax abatements infrastructure construction land giveaways job training programs and other subsidies As of early 2015 ten foreign vehicle makers operated 20 light vehicles in developed North America Despite the fact that all ten of these automakers have pursued a similar pattern first exporting vehicles into the United States and Canada before launching vehicle plants in developed North America each has followed its own specific historical development path and has created its own unique growth trajectory This book provides a unique historical and qualitative review of these ten vehicle makers from their early beginnings to their export entry into the United States and or Canada through early 2015 In addition it chronicles the histories of more than a dozen former automakers and potential future foreign light motor vehicle assembly plants in the United States and Canada This includes the first foreign automaker

to build its cars in the United States De Dion Bouton of France in July 1900 the early 20th Century endeavors of Fiat Mercedes and Rolls Royce and the present day hopes of Chinese and Indian automakers In the process the text also provides an assessment of the top competing states and sites for any future plants the possible incentives packages governments may offer to attract such facilities and an estimated incentive value for each automaker Overall the goal of this book is to expand the knowledge of policymakers at all tiers of government in the United States and Canada and to help them take a more holistic look at the pros and cons of attracting Automobile Manufacturing FDI It is hoped that this will enable them to make more informed decisions when pursuing a new foreign motor vehicle assembly plant Its findings should also prove informative to urban and regional planning political science sociology economics labor and international development scholars and students in North America and worldwide **Automotive FDI in Emerging Europe** A. J. Jacobs,2017-06-19

This book examines the dramatic increase in automotive assembly plants in the former Socialist Central European CE nations of Czechia East Germany Hungary Poland and Slovakia from 1989 onwards Enticed by relatively lower wage labour and significant government incentives the world s largest automakers have launched more than 20 passenger car assembly complexes in CE nations with production accelerating dramatically since 2001 As a result the annual passenger car production in Western Europe declined by more than 20% between 2001 and 2015 and alternatively in the CEE it increased by nearly 170% during this period Drawing on case studies of 25 current and former foreign run assembly plants the author presents a rare historical account of automotive foreign assembly plants in the CE following this dramatic geographic shift This book will expand the knowledge of policy makers in Europe in relation to their pursuits of FDI and will be of great interest to scholars and students of business economic history political science and development **Road & Track** ,1984-02
