The Ensign **The Boatbuilder's Apprentice** Greg Rossel, 2007-01-05. Learn the Ins and Outs of Building Lapstrake Carvel Stitch and Glue Strip Planked and Other Wooden Boats. Whether you are contemplating your first ever boatbuilding project or trying to decide what design you'd like to build next, Greg Rossel can help. Here's just a glimpse of what's inside this complete overview of wooden boatbuilding. How rowing, sailing, paddling and powerboat designs perform and how they compare in cost, time and necessary skills for building. How wooden boats are built including the pros and cons of carvel lapstrake, dory lap stitch and glue strip plank and other methods. How to choose the best boat and building method for your next project. How to loft a hull, steam bend frames, scarf a joint, cut a rabbet, laminate stems and spile planks. How to take the lines off an old classic whose plans have been lost. How to make oars, spars, coamings, knees, gaff jaws, cleats and more. Greg Rossel writes with warmth, wit and an engaging style. The Boatbuilder's Apprentice is a must guide for anyone planning or even dreaming about building a wooden boat. Greg Rossel is a Renaissance man. While there are many talented boatbuilders in the world, only a handful are also good teachers. Even fewer can write or illustrate effectively. Yet this author is highly skilled in each of these areas. The Boatbuilder's Apprentice is a successful blend of technique and wisdom and is, I believe, destined to become a classic.
